*Visual Cultures of the Ethnic Chinese in Indonesia* Abidin Kusno, 2016-10-06 *Visual Cultures of the Ethnic Chinese in Indonesia* explores how visual representations shaped and were shaped by how the ethnic Chinese confronted the period of economic dislocation and radical social change during Dutch colonialism and the nationalist struggles in the decolonized Indonesia including the post 1965 and 1998 social environments How did the ethnic Chinese communities represent themselves to both their domestic and outside world under the changing regimes of representation How did they visualize symbolically their place in Indonesian society How did the visual shape the ambiguities of the Chinese the perception of the economic identity and the forgetting of their involvement in politics cultures and histories of the nation More broadly how did the visual address the interconnectedness of domestic life the urban cultural milieu and ideologies of the state and the ruling class The book is a response to two paradoxical socio political phenomena whose convergence is shaping the experience and conceptualization of ethnic Chinese in Indonesia On the one hand the economic technological and cultural forces of colonialism and globalization have created conditions for the formation of ethnic Chinese capitalists while on the other the state generated identity and identification constituted the discourses of othering the ethnic Chinese as foreign minority

*Alternative Representations of the Past* Ying-Kit Chan, Fei Chen, 2020-11-23 The relationship between the Chinese nation and its recent past has been fraught with contradictions and tensions This collection aims to make sense of this complex relationship and challenge the prevalent state centric and nation centric modes of history writing on modern China It explores alternative representations of the past and the salience of political conflicts and competitive histories in China highlighting the paradoxical similarities in such representations of the past from the late nineteenth century to the present Ultimately this book contributes to the ongoing discussion on the politics of interpreting the past and its many manifestations in both China and other societies This volume will contribute to the scholarly debate on the use of the past in national history

Tze-ki Hon City University of Hong Kong *Alternative Representations of the Past* presents a collection of essays that critically examine the ways in which the contradicting and

study of what an ethnic minority could do to make a difference Backed by formidable research Chong has produced an intriguing and original view of the political social and economic activity of the still precariously placed Chinese minority in Indonesia Donald L Horowitz Duke University author of *Constitutional Change and Democracy in Indonesia* In this illuminating study Chong traces the political economy of Indonesia's ethnic Chinese minority as they navigate the country's post 1998 politics which is more free but still lacks strong rule of law Focusing especially on Medan and Surabaya she analyses how some have strongly supported reforms while many continue old practices of surviving and profiting by participating in massive corruption and extortion Jeffrey A Winters Northwestern University author of *Oligarchy*
