Bridges of Memory Timuel D. Black, 2003 Table of contents **Bridges of Memory Volume 2** Timuel D.

Black, 2008-04-16 Winner of 2006 Jewish Council on Urban Affairs Courageous Voices Award In the second volume of Bridges of Memory historian Timuel D Black Jr continues his conversations with African Americans who migrated to Chicago from the South in search of economic social and cultural opportunities With his trademark gift for interviewing Black himself the son of first generation migrants to Chicago guides these individual discussions with ease resulting in first person narratives that are informative and entertaining Picking up where the first book left off volume 2 introduces the reader to more members of the first wave of migration and also members of the second generation the children of those who came in the first wave In telling their stories the interviewees paint a vivid picture of the thriving and tight knit Chicago community formerly known as the Black Belt today s historic Bronzeville neighborhood They bring to life the role of family religion business music and most of all the hopes dreams and perseverance that enabled a group of people to establish a successful community within a larger society that seemed determined to keep them from success The experiences of these diverse and vivid personalities often illustrate the role that racial prejudice has played in shaping the specific arcs of their lives But personal histories such as these are not just chronicles of frustration and despair more important these narratives reveal an unwavering dedication to breaking the color line and a tireless pursuit of their right to the promise of America **The Great Black Migration**

Steven A. Reich, 2014-04-17 Treating broad themes as well as specific topics this guide to the Great Black Migration will introduce high school students to a touchstone critical to shaping the history of African Americans in the United States The movement of Southern blacks to the urban North and West over the course of the 20th century had a profound impact on black life affecting everything from politics and labor to literature and the popular arts This encyclopedia provides readers and researchers with a comprehensive reference work on this central topic of African American history exploring the breadth of the black migration experience from its origins in the agricultural economy of the post Civil War South to the return migration of the late 20th century Entries cover such topics as the destinations that attracted black migrants the impact of the Great Migration on black religion the relationship between migration and black politics and the patterns of discrimination and racial violence migrants encountered Unlike more general reference works on African American history each entry in the encyclopedia situates its subject within the context of black migration and articulates connections between the subject of the entry and the overall history of the migration **The Rise of Chicago's Black Metropolis, 1920-1929** Christopher

Robert Reed, 2011-04-15 During the Roaring 20s African Americans rapidly transformed their Chicago into a black metropolis In this book Christopher Robert Reed describes the rise of African Americans in Chicago s political economy bringing to life the fleeting vibrancy of this dynamic period of racial consciousness and solidarity Reed shows how African Americans rapidly transformed Chicago and achieved political and economic recognition by building on the massive population growth after the

Great Migration from the South the entry of a significant working class into the city's industrial work force and the proliferation of black churches Mapping out the labor issues and the struggle for control of black politics and black business Reed offers an unromanticized view of the entrepreneurial efforts of black migrants reassessing previous accounts such as St Clair Drake and Horace R Cayton's 1945 study *Black Metropolis* Utilizing a wide range of historical data *The Rise of Chicago's Black Metropolis 1920-1929* delineates a web of dynamic social forces to shed light on black businesses and the establishment of a black professional class The exquisitely researched volume draws on fictional and nonfictional accounts of the era black community guides mainstream and community newspapers contemporary scholars and activists and personal interviews

Sun Ra's Chicago William Sites, 2021-01-11 Sites provides crucial context on how Chicago's Afrocentrist philosophy religion and jazz scenes helped turn Blount into Sun Ra Chicago Reader Sun Ra 1914-93 was one of the most wildly prolific and unfailingly eccentric figures in the history of music Renowned for extravagant performances in which his Arkestra appeared in neo Egyptian garb the keyboardist and bandleader also espoused an interstellar cosmology that claimed the planet Saturn as his true home In *Sun Ra's Chicago* William Sites brings this visionary musician back to earth specifically to the city's South Side where from 1946 to 1961 he lived and relaunched his career The postwar South Side was a hotbed of unorthodox religious and cultural activism Afrocentric philosophies flourished storefront prophets sold dream book bibles and Elijah Muhammad was building the Nation of Islam It was also an unruly musical crossroads where the man then known as Sonny Blount drew from an array of intellectual and musical sources from radical nationalism revisionist Christianity and science fiction to jazz blues Latin dance music and pop exotica to construct a philosophy and performance style that imagined a new identity and future for African Americans *Sun Ra's Chicago* shows that late twentieth century Afrofuturism emerged from a deep utopian engagement with the city and that by excavating the postwar black experience of Sun Ra's South Side milieu we can come to see the possibilities of urban life in new ways Four stars Sites makes the engaging argument that the idiosyncratic jazz legend's penchant for interplanetary journeys and African American utopia was in fact inspired by urban life right on Earth Spectrum Culture

Racial Oppression in the Global Metropolis Paul L. Street, 2007-07-19 Anti black racism is a stark presence in Chicago a fact illustrated by significant racial inequality in and around contemporary global city Drawing his work as a civil rights advocate and investigator in Chicago Street explains this neo liberal apartheid and its resulting disparity in terms of persistently and deeply racist societal and institutional practices and policies *Racial Oppression in the Black Metropolis* uses the highly relevant historical and sociological laboratory that is Chicago in order to explain the racist societal and institutional practices and policies which still typify the United States Street challenges dominant neoconservative explanations of the black urban crisis that emphasize personal irresponsibility and cultural failure Looking to the other side of the ideological isle he criticizes liberal and social democratic approaches that elevate class over race and challenges many observers sharp distinction between present and so called past racism In

questioning the supposedly inevitable reign of urban neoliberalism Street also investigates the real racial politics of the United States and finds that parties and ideologies matter little on matters of race This innovative work in urban history and cultural criticism will inform contemporary social science and policy debates for years to come **Emmett Till** Devery S.
