Bridging The Class Divide And Other Lessons For Grassroots Organizing:

Bridging the Class Divide Linda Stout, 1997-02-28 Again and again social change movements on matters from the environment to women's rights have been run by middle class leaders But in order to make real progress toward economic and social change poor people those most affected by social problems must be the ones to speak up and lead It can be done Linda Stout herself grew up in poverty in rural North Carolina and went on to found one of this country's most successful and innovative grassroots organizations the Piedmont Peace Project Working for peace jobs health care and basic social services in North Carolina's conservative Piedmont region the project has attracted national attention for its success in drawing leadership from within a working class community actively encouraging diversity and empowering people who have never had a voice in policy decisions to speak up for their own interests The Piedmont Peace Project demonstrates that new ways of organizing can really work *Bridging the Class Divide* tells the inspiring story of Linda Stout's life as the daughter of a tenant farmer as a self taught activist and as a leader in the progressive movement It also gives practical lessons on how to build real working relationships between people of different income levels races and genders This book will inspire and enrich anyone who works for change in our society *The Nation Guide to the Nation* Richard Lingeman, *Nation Magazine*, 2009-01-06 The essential lifestyle guide for the millions of progressives on both coasts *The Nation Guide to The Nation* will help left of center types find left leaning shops cultural institutions and gathering places in their own hometowns and on the road CULTURAL Art collectives activist documentaries political circuses film festivals writers colonies left brained bookstores arts advocacy groups indie book publishers the 25 greatest political movies detective stories for liberals SOCIAL Organic and slow food restaurants political saloons and bars bookshop cafés and conversational coffeehouses sexy singles meet ups reading clubs and discussion groups camps for radical kids parades and festivals parks and preserves ENVIRONMENTAL Activist groups monkey wrenchers and sea shepherds eco friendly products favorite green markets super co ops eco tourism farm communes energy solutions ORGANIZATIONS Peace and anti nuclear feminist GLBT economic policy immigrant rights labor issues campaign finance reform civil liberties radical mouthpieces liberal think tanks MEDIA Left talk radio press watchdogs anti corporate media regional and local papers alternative weeklies a guide to the blogosphere GOODS AND SERVICES Natural food stores no sweat clothing socially conscious mutual funds political tours eco beers and hemp pretzels funeral homes and cemeteries for a green send off *Revisiting the Use of Self* Deena Mandell, 2007 In recent years several developments have stimulated new ways of thinking about the social worker's self or selves in all aspects of practice The focus on practice with diverse populations and the emphasis on anti oppressive practice have highlighted elements of the relationship between social worker and client The objective of this book is threefold 1 Offer the reader a historical developmental overview of the concept of use of self and critically explore its adequacy for contemporary ethical practice 2 Provide the reader with first person practitioners accounts of their own use of self in

examples of reflective practice approaches 3 Broaden the scope of the concept of critical use of self to fields of service where it is under theorized in for example community work and corrections **Class Lives** Chuck Collins, Jennifer Ladd, Maynard Seider, Felice Yeskel, 2014-12-18 Class Lives is an anthology of narratives dramatizing the lived experience of class in America It includes forty original essays from authors who represent a range of classes genders races ethnicities ages and occupations across the United States Born into poverty working class the middle class and the owning class and every place in between the contributors describe their class journeys in narrative form recounting one or two key stories that illustrate their growing awareness of class and their place changing or stable within the class system The stories in Class Lives are both gripping and moving One contributor grows up in hunger and as an adult becomes an advocate for the poor and homeless Another acknowledges the truth that her working class father's achievements afforded her and the rest of the family access to people with power A gifted child from a working class home soon understands that intelligence is a commodity but finds his background incompatible with his aspirations and so attempts to divide his life into separate worlds Together these essays form a powerful narrative about the experience of class and the importance of learning about classism class cultures and the intersections of class race and gender Class Lives will be a helpful resource for students teachers sociologists diversity trainers activists and a general audience It will leave readers with an appreciation of the poignancy and power of class and the journeys that Americans grapple with on a daily basis **Progressive Community Organizing**

A Promise And A Way Of Life Becky Thompson, 2001-08-07 The first in depth look at white people's activism in fighting racism during the past fifty years Not since the Civil Rights Movement of the 1950s and 1960s when many white college students went south to fight against Jim Crow laws has white antiracist activity held the public's attention Yet there have always been white people involved in fighting racism In this passionate work Becky Thompson looks at white Americans who have struggled against racism offering examples of both successes and failures inspirations practical philosophies and a way ahead A Promise and a Way of Life weaves an account of the past half century based on the life histories of thirty nine people who have placed antiracist activism at the center of their lives Through a rich and fascinating narrative that links individual experiences with social and political history Thompson shows the ways both public and personal in which whites have opposed racism during several social movements the Civil Rights and Black Power movements multiracial feminism the Central American peace movement the struggle for antiracist education and activism against the prison industry Beginning with the diverse catalysts that started these activists on their journeys this book demonstrates the contributions and limitations of white antiracism in key social justice movements Through these stories crucial questions are raised Does antiracist work require a repudiation of one's whiteness or can that identity be transformed through political commitment and alliances What do white people need to do to undermine white privilege What would it take to build a multiracial movement in which white people are responsible for creating antiracist alliances while not co-opting people of color Unique in its depth and thoroughness A Promise and a Way of

Life is essential for anyone currently fighting racism or wondering how to do so Through its demonstration of the extraordinary personal and social transformations ordinary people can make it provides a new paradigm for movement activity one that will help to incite and guide future antiracist activism **Missing Class** Betsy Leondar-Wright, 2014-03-20

Many activists worry about the same few problems in their groups low turnout inactive members conflicting views on racism overtalking and offensive violations of group norms But in searching for solutions to these predictable and intractable troubles progressive social movement groups overlook class culture differences In *Missing Class* Betsy Leondar Wright uses a class focused lens to show that members with different class life experiences tend to approach these problems differently This perspective enables readers to envision new solutions that draw on the strengths of all class cultures to form the basis of stronger cross class and multiracial movements The first comprehensive empirical study of US activist class cultures *Missing Class* looks at class dynamics in 25 groups that span the gamut of social movement organizations in the United States today including the labor movement grassroots community organizing and groups working on global causes in the anarchist and progressive traditions Leondar Wright applies Pierre Bourdieu's theories of cultural capital and habitus to four class trajectories lifelong working class and poor lifelong professional middle class voluntarily downwardly mobile and upwardly mobile Compellingly written for both activists and social scientists this book describes class differences in paths to activism attitudes toward leadership methods of conflict resolution ways of using language diversity practices use of humor methods of recruiting and group process preferences Too often we miss class *Missing Class* makes a persuasive case that seeing class culture differences could enable activists to strengthen their own groups and build more durable cross class alliances for social justice
