Classical Economics Today Marcella Corsi, Jan Kregel, Carlo D'Ippoliti, 2018-01-22 *Classical Economics Today* Essays in Honor of Alessandro Roncaglia comprises a collection of original essays by leading economists who adopt a Classical approach to political economy The essays showcase the relevance and topicality of the Classical approach as opposed to the sterility and real world irrelevance of mainstream economics

Re-Mapping Centre and Periphery Tessa Hauswedell, Axel Körner, Ulrich Tiedau, 2019-03-25 Historians often assume a one directional transmission of knowledge and ideas leading to the establishment of spatial hierarchies defined as centres and peripheries In recent decades transnational and global history have contributed to a more inclusive understanding of intellectual and cultural exchanges that profoundly challenged the ways in which we draw our mental maps Covering the early modern and modern periods *Re Mapping Centre and Periphery* investigates the asymmetrical and multi directional structure of such encounters within Europe as well as in a global context Exploring subjects from the shores of the Russian Empire to nation making in Latin America the international team of contributors demonstrates how as products of human agency centre and periphery are conditioned by mutual dependencies rather than representing absolute categories of analysis they are subjective constructions determined by a constantly changing discursive context Through its analysis the volume develops and implements a conceptual framework for remapping centres and peripheries based on conceptual history and discourse history As such it will appeal to a wide variety of historians including transnational cultural and intellectual and historians of early modern and modern periods

London's Urban Landscape Christopher Tilley, 2019-05-07 *London's Urban Landscape* is the first major study of a global city to adopt a materialist perspective and stress the significance of place and the built environment to the urban landscape Edited by Christopher Tilley the volume is inspired by phenomenological thinking and presents fine grained ethnographies of the practices of everyday life in London In doing so it charts a unique perspective on the city that integrates ethnographies of daily life with an analysis of material culture The first part of the volume considers the residential sphere of urban life discussing in detailed case studies ordinary residential streets housing estates suburbia and London's mobile linear village of houseboats The second part analyses the public sphere including ethnographies of markets a park the social rhythms of a taxi rank and graffiti and street art *London's Urban Landscape* returns us to the everyday lives of people and the manner in which they understand their lives The deeply sensuous character of the embodied experience of the city is invoked in the thick descriptions of entangled relationships between people and places and the paths of movement between them What stories do door bells and house facades tell us about contemporary life in a Victorian terrace How do antiques acquire value and significance in a market How does living in a concrete megastructure relate to the lives of the people who dwell there These and a host of other questions are addressed in this fascinating book that will appeal widely to all readers interested in London or contemporary urban life

Michael Dash,1994-09-06 This history for the first time charts the literature of the entire Caribbean the islands as well as continental littoral as one cultural region It breaks new ground in establishing a common grid for reading literatures that have been kept separate by their linguistic frontiers Readers will have access to the best current scholarship on the evolution of popular and literate cultures in the various regions since their earliest emergence The History of Literature in the Caribbean brings together the most distinguished team of literary Caribbeanists ever assembled cutting across ideological commitments and critical methods Differences in point of view between individual contributors are left intact here as the sign of the colonial inheritance of the region Introductions and conclusions to the various sections of the History written by the respective subeditors set them in proper perspective The unique synoptic aspect of the History lies in its comprehensiveness and its range which are unequalled Contributors A James Arnold Julio Rodriguez Luis H Lopez Morales Maria Elena Rodriguez Castro Silvio Torres Saillant Seymour Menton Ian I Smart Efrain Barradas Raquel Chang Rodriguez Carlos Alonso Ivan A Schulman W L Siemens William Luis Gustavo Pellon Emilio Bejel Sandra M Cypess Peter Earle Adriana Mndez Rodenas J Michael Dash Ulrich Fleischmann Maximilien Laroche Rgis Antoine Lon Franois Hoffmann Randolph Hezekiah Bridget Jones F I Case Marie Denise Shelton Beverly Ormerod J Michael Dash Jack Corzani Anthea Morrison Juris Silenieks Frantz Fanon Vere Knight **Madness and Irrationality in Spanish and Latin American Literature and Culture** Lloyd

Hughes Davies,2020-06-01 The subject matter is topical madness has universal and enduring appeal The positive aspects of the irrational particularly its potential for cultural renewal are given more prominence than has been the case in the past The coverage is wide ranging new critical angles enrich our understanding of major writers while the appeal of lesser known figures is highlighted often by means of a comparative perspective **Bulletin** ,1995 Being in Common Silvia Nora

Rosman,2003 Rosman persuasively demonstrates how they explore ways of being in common the communal relation when the notion of a common being a totalized conception of community is shown to be untenable In doing so she incorporates and looks beyond her predecessors theoretical resources to urgent contemporary preoccupations with how to imagine identity in a post national moment Jacket **Public Intellectuals and Nation Building in the Iberian Peninsula, 1900-1925**

Thomas S. Harrington,2014-12-11 This book provides a detailed analysis of the core concepts of national identity articulated by Iberian writers during the period between 1900 and 1925 It is centered on four pedagogical essays written in these decades previous to the onset of authoritarian dictatorships in Spain and Portugal works that are absolutely central to understanding the discursive architecture of collective identity in these same places today They are as follows Enric Prat de la Riba s La Nacionalitat Catalana 1906 Teixeira de Pascoaes Arte de Ser Portugu s 1915 Vicente Risco s Teor a do Nacionalismo Galego 1920 and Jos Ortega y Gasset s Espa a invertebrada 1921 The study consists of a discussion of some of the more important theoretical issues connected to social articulation of cultural identities four chapter long analyses of the textual manifestations of national identity within the major Romance language communities of the Iberian peninsula and a

conclusion which underscores the key function played by these public intellectuals in establishing the parameters of the Imagined Communities with which they felt primarily identified On the most basic level the study of these catechistic visions of national individuality provides a heightened sense of both the differences and commonalities inherent in the cultural traditions of these core nationality groups of the Iberian Peninsula On another level the study reminds us of the important pedagogical function of literature understood here in the broadest possible sense in the formation and maintenance of nationality identities then as well as now

A Companion to Spanish-American Literature Stephen M. Hart, 1999 There are also separate sections on the modernistas and postmodernismo avant garde poetry in the twentieth century and the Boom novel A final chapter is dedicated to an analysis of some recent developments within the Spanish American literary canon such as the post Boom novel with a separate section on women writers testimonio Latino literature the gay lesbian novel and Afro Hispanic literature

Quiroga, 2013-10-25 This book investigates the use of football to create shape and promote Spanish Catalan and Basque national identities and explores the utilization of soccer to foster patriotic feelings exposing the often dark vested interests behind the propagation of national narratives through soccer
