Brieven Van Het Comomeer:

Finding Solutions for a Post-Crisis Society Teresa Torres-Coronas, Angel Belzunegui-Eraso, Josep Moreno-Gené, 2015-12-28 Since 2007 and the economic meltdown caused by the financial crisis our societies have been evolving in different ways New political movements have emerged in Southern Europe and new social movements in pursuit of common concerns are playing a more active role in our daily lives In a parallel way after the failure to predict the financial crisis economist and social science researchers seek fresh thinking and new models that can better explain this new reality Regulations are of critical importance in shaping the welfare of economies and society Thus core legal disciplines are exploring the effects of the financial crisis on social rights labour market regulations and civil common law or international law among others With no doubt the economic crisis has deeply impacted our economic social political and legal environment During the last decade researchers from a wide range of disciplines have been looking for solutions Now it is time make a side stop on the way and to gather results The 1st International SBRLab Conference Finding solutions for a post crisis society is organized by the Social and Business Research Lab SBRLab Universitat Rovira i Virgili It is as an international and virtual meeting point of interdisciplinary research and researchers The purpose of this international conference is to bring together researchers from management economics political social and legal disciplines in order to present and discuss new trends in their respective fields

Weapon Manufacture and Authority on the Frontier of Late and Post-Roman Italy Fabio Carminati, Andrea Mariani, 2025-10-01 This monograph presents a microstudy of a crucially important and profoundly revealing location the territory around the modern city of Lecco which lies on the eastern branch of Lake Como in Lombardy northern Italy Contrary to traditional reconstructions that present eastern Lake Como as a marginal region where no important events took place in Late Antiquity and the Early Middle Ages this book demonstrates that the area functioned as a key point of connection across the Roman Empire the Rhine Danube limes and continued to function long after the political collapse of the Empire in the West Furthermore the region was the location of what can only be described as a state arms factory for the Roman Empire the importance of which only began to fade in the eleventh century This book represents the culmination of a comprehensive reconsideration of the historical sources and available archaeological evidence offering a new framework for analysis and insights into the transformations that took place from the late Empire into the Middle Ages

Post-Global Aesthetics Gesine Müller, Benjamin Loy, 2022-10-24 Phenomena such as the Covid 19 pandemic climate change or the surge of political populism show that the current phase of accelerated globalization is over New concepts are needed in order to respond to this exhaustion of the global project the volume scrutinizes these responses in the aesthetic realm and under a post global banner while incorporating alternative non Western epistemologies and literatures of the post colonial Global South

Pious Brief Narrative in Medieval Castilian and Galician Verse John E. Keller, 2021-12-14 Brief narratives or medieval precursors to the modern short story are compositions couched in the form of a tale of

reasonable short length They began with writings in Latin and eventually made their way into the vernacular languages of Europe They include the fable the apologue the exemplum the saint's life the miracle the biography the adventure tale the romance the jest and the anecdote among others In Spain the oldest extant brief narratives in written form are in verse and date from the late twelfth and early thirteenth centuries The earliest examples include *La vida de Santa Maria Egipcíaca* and *El libro dels tres reys d'Orient* Both are concise enough to be read in one sitting and were probably read before or after meals as entertainment In Pious Brief Narrative in Medieval Castilian and Galician Verse John E Keller studies the structure of the pious brief narrative including such works as the *Cantigas de Santa Maria* of Alfonso X and Gonzalo de Berceo's *Milagros de Nuestra Señora* among others He examines which narrative techniques were employed by their authors including versification music and the pictorial arts as aids to narration Using nine basic elements plot setting conflict characterization theme style effect point of view and mood or tone Keller shows how writers in medieval Spain employed more sophisticated uses of these techniques than has previously been recognized [Lippincott's Gazetteer of the World](#)

Angelo Heilprin, Louis Heilprin, 1922 **Cidade Pós-compacta - Post-compact city** Guilherme Lassance, Luciana Saboia, Caroline Pescatori, Cauê Capillé, 2023-02-06 Cidade pós compacta apresenta a hipótese de que um outro olhar sobre o urbanismo moderno pode nos fornecer pistas para lidar com os desafios do fenômeno urbano contemporâneo Defendemos ser urgente um projeto que busque uma alternativa por um lado receita de tornar compacto o não compacto e por outro simples inclusão do lugar não cidade e não edificado numa nova epistemologia ampliada do urbanismo Post compact city presents the hypothesis that another view on modern urbanism may provide us with clues for dealing with the challenges of the contemporary urban phenomenon We argue that there is an urgent need for a design strategy that provides an alternative for on the one hand a recipe in order to make the non compact compact and on the other the simple inclusion of the condition of non place non city and unbuilt in a new expanded epistemology of urbanism [A Brief Anthology of Mexican Verse](#)

S. L. Millard Rosenberg, Ernest H. Templin, 1928 **Post-occupancy evaluation of library buildings** Karen Latimer, Dorothea Sommer, 2015-09-25 Architectural realisation of a building and its opening to the public with a range of services are central components of the building and design process of libraries Post Occupancy Evaluation POE is the final step in this process It provides a opportunity to assess whether the construction and design of the building has indeed met the library's and users requirements and how effectively the building functions **A Brief Response on the Controversies over Shangdi, Tianshen and Linghun** Thierry Meynard, Daniel Canaris, 2021-08-03 This book represents the first critical edition and scholarly annotated translation of a pioneering report on the predicament of cross cultural understanding at the dawn of globalization titled *A Brief Response on the Controversies over Shangdi Tianshen and Linghun* Resposta breve sobre as Controvérsias do Xmt Tien Xn Lm hōn which was written in China by the Sicilian Jesuit missionary Niccolò Longobardo 1565 1654 in the 1620s and profoundly influenced Enlightenment understandings of Asian philosophy

The book restores the focus on Longobardo's own intellectual concerns while also reproducing and analyzing all the Chinese language annotations on the previously unpublished Portuguese and Latin manuscripts. Moreover, it meticulously modernizes all romanizations with standard Hanyu pinyin and identifies on the basis of archival research most of Longobardo's Chinese interlocutors, thus providing new insights into how the Jesuits networked with Chinese scholars in the late Ming. In this way, it opens up this seminal text to Sinologists and global historians exploring Europe's first intellectual exchanges with China. In addition, the book presents four introductory essays written by the editors and two prominent scholars on the Jesuit China mission. These essays comprehensively reconstruct the historical and intellectual context of Longobardo's report, stressing that it cannot be viewed purely as a product of Sino-European cultural exchange but also as an outgrowth of both exegetic debates within Europe and of European experiences across Asia, especially in Japan. Hence, this critical edition will greatly contribute to a more globalized view of the Jesuit China mission.
