Action Stations Wing Commander:

Action Stations William R. Forstchen, 2017-03-07 THEY PLANNED ON A NICE WAR There had been a century of peace and the politicians of Earth and its colonies were running on platforms of cutting wasteful military spending all while Earth's military tried to keep aging and obsolete ships flying and battle ready And while the swords rusted war clouds gathered on the horizon Contact had been made with the Kilrathi a warrior race feline in appearance and deadly in combat Yet even though they had annihilated or enslaved scores of other races throughout the galaxy and had attacked human colonies on the border worlds the government was not taking them seriously thinking that the Fleet could handle them with ease Commander Winston Turner knew that the government was moving toward a declaration of war against the Kilrathi in response to demands from the border worlds He also knew that the Fleet would be forced to operate under Plan Orange Five limited action and punitive responses only He only hoped that mankind would recognize its mistake before it was too late

Action Stations: Military airfields of the Central South and South-East Chris Ashworth, 1990 First published in 1985 this up dated version includes additional text and photographs bringing the story up to date This is the last of the area volumes in the Action Stations series *Paralegic Heroes* Ashley Mottram, 2015-08-28 An elite special forces unit under the Coalition of Governments attempt to land forces in Spain from the garrison at the British base of Sanctuary With desperate and endless battles against the alien invaders the garrison commanders also send a company to the north of England to a facility sheltering a space shuttle its mission to break the Earth's orbit and scout out the alien fleet A second company aims to link up scattered forces within England as well as aid European forces struggling to regain control With heavy casualties in the battles the Paralegic Regiment find themselves in a race against time battling against battle hardened troops with high tech and barely beatable equipment Sweat blood tears and precious metal drench the fields of England and the Spanish beach of San Sebastian as a fleet of American and European warships join the fight to save mankind in an endless war **Action**

Stations: Military airfields of the South-West Chris Ashworth, 1990 *Action Stations: Military airfields of the Cotswolds and the Central Midlands*, 1990 *Drop Zone Borneo* Roger Annett, 2006-09-15 In 1963 the Indonesian Army that threatened Borneo numbered 330 000 men plus three thousand Commandos Of these six thousand were within 20 miles of the Borneo frontier This grew to thirteen thousand in early 1965 From mid way through 1964 British troops and their allies who were defending the border started to make offensive incursions into Indonesian Borneo these operations were codenamed Claret Taken into account the confrontational nature of the campaign casualties sustained in Borneo were surprisingly light That in the whole of the Borneo campaign there were no fatalities among the RAF supply dropping transports was extraordinary The border area between the Indonesian and Malaysian parts of Borneo was one of the most inaccessible areas of mountainous jungle anywhere in the world an entire army was kept supplied in the field for the complete campaign This is the exciting account from a pilot who flew the dangerous flying missions and relates the tenseness

and stresses of Jungle life in those dangerous days *Action Stations Revisited: Central England and the London area*
