Angles of Attack Marko Kloos,2015 The alien forces known as the Lankies are gathering on the solar system's edge consolidating their conquest of Mars and setting their sights on Earth The far off colony of New Svalbard cut off from the rest of the galaxy by the Lanky blockade teeters on the verge of starvation and collapse The forces of the two Earth alliances have won minor skirmishes but are in danger of losing the war For battle weary staff sergeant Andrew Grayson and the ragged forces of the North American Commonwealth the fight for survival is entering a catastrophic new phase Forging an uneasy alliance with their Sino Russian enemies the NAC launches a hybrid task force on a long shot a stealth mission to breach the Lanky blockade and reestablish supply lines with Earth Plunging into combat against a merciless alien species that outguns outmaneuvers and outfights them at every turn Andrew and his fellow troopers could end up cornered on their home turf

with no way out and no hope for reinforcement And this time the struggle for humanity s future can only end in either victory or annihilation On the Frontlines of the Television War Yasutsune Hirashiki,2020-01-10 The eyewitness accounts of the many phases of the war in this memoir bring events to life as if they had happened yesterday Vietnam Veterans of America Book Reviews On the Frontlines of the Television War is the story of Yasutsune Tony Hirashiki s ten years in Vietnam beginning when he arrived in 1966 as a young freelancer with a 16mm camera but without a job or the slightest grasp of English and ending in the hectic fall of Saigon in 1975 when he was literally thrown on one of the last flights out His memoir has all the exciting tales of peril hardship and close calls of the best battle memoirs but it is primarily a story of very real and yet remarkable people the soldiers who fought bled and died and the reporters and photographers who went right to the frontlines to record their stories and memorialize their sacrifice If this was truly the first television war then it is time to hear the story of the cameramen who shot the pictures and the reporters who wrote the stories that the average American witnessed daily in their living rooms An award winning sensation when it was released in Japan in 2008 this book has been completely recreated for an international audience Tony Hirashiki is an essential piece of the foundation on which ABC was built Tony reported the news with his camera and in doing so he brought the truth about the important events of our day to millions of Americans David Westin former President of ABC News **Frontlines, World War II** John Maino,2006

Aerospace Engineering Education During the First Century of Flight Barnes Warnock McCormick,Conrad F. Newberry,Eric Jumper,2004 On 17 December 1903 at Kitty Hawk NC the Wright brothers succeeded in achieving controlled flight in a heavier than air machine This feat was accomplished by them only after meticulous experiments and a study of the work of others before them like Sir George Cayley Otto Lilienthal and Samuel Langley The first evidence of the academic community becoming interested in human flight is found in 1883 when Professor J J Montgomery of Santa Clara College conducted a series of glider tests Seven years later in 1890 Octave Chanute presented a number of lectures to students of Sibley College Cornell University entitled Aerial Navigation This book is a collection of papers solicited from U S universities or institutions with a history of programs in Aerospace Aeronautical engineering There are 69 institutions covered in the 71 chapters This collection of papers represents an authoritative story of the development of educational programs in the nation that were devoted to human flight Most of these programs are still in existence but there are a few papers covering the history of programs that are no longer in operation documented in Part I as well as the rapid expansion of educational programs relating to aeronautical engineering that took place in the 1940s Part II is devoted to the four schools that were pioneers in establishing formal programs Part III describes the activities of the Guggenheim Foundation that spurred much of the development of programs in aeronautical engineering Part IV covers the 48 colleges and universities that were formally established in the mid 1930s to the present The military institutions are grouped together in the Part V and Part VI presents the histories of those programs that evolved from proprietary institutions **Row House to White House**
