### Create an Animal Activity

Directions: Design an imaginary animal with structures that help it survive in its environment by meeting its basic needs. Be creative! Write a paragraph with at least 5 complete sentences to describe your animal. Please include all of the following information:

- What is your new animal's name?
- What type of environment does your animal live in?
- What structures does the animal have?
- What function does each structure provide for the animal to survive?

The Polar Fluffwing is a flying animal that lives in a cold arctic, with lots of ice and snow. The Polar Fluffwing has large wings to help it fly and move around in its environment. The wings also help it escape from predators and hunt for food. The Fluffwing also has thick, white fur to help it stay warm in the snow and to help it stay warm in the weather.

Thick, white fur for camouflage and warmth.

The criteria reflect and incorporate goals and principles of the National Science Education Standards. The annotations designate the specific content standards on which these curriculum pieces focus. In addition to the curriculum chapters, the guide contains six chapters of diverse resources that are directly relevant to middle school science. Among these is a chapter on educational software and multimedia programs, chapters on books about science and teaching, directories and guides to science trade books and periodicals for teachers and students. Another section features institutional resources. One chapter lists about 600 science centers, museums, and zoos where teachers can take middle school students for interactive science experiences. Another chapter describes nearly 140 professional associations and U.S. government agencies that offer resources and assistance. Authoritative, extensive, and thoroughly indexed, and the only guide of its kind, *Resources for Teaching Middle School Science* will be the most used book on the shelf for science teachers, school administrators, teacher trainers, science curriculum specialists, advocates of hands-on science teaching, and concerned parents.

**Differentiating By Student Learning Preferences** Joni Turville, 2013-11-20. This book shows teachers how to differentiate instruction based on their students' learning preferences. Included are strategies and lesson plans for visual, auditory, and kinesthetic learners; analytical, practical, and creative learners; and multiple intelligences, etc. Also included are over 50 blackline masters which you can copy or download to use in your classroom.

**Creative Dance for Learning: The Kinesthetic Link** Mary Ann Brehm, Lynne McNett, 2008. *Creative Dance for Learning: The Kinesthetic Link* is a comprehensive teaching guide that addresses the what, why, and how of creative dance. It provides theoretical and practical guidance on teaching creative dance, particularly in educational settings. The authors' approach is heavily influenced by Barbara Mettler, Margaret H. Doubler, and Rudolph Laban, all legendary figures in the field of creative dance. Their theories are combined with the authors' insights from thirty years of dance teaching experience to validate dance as art education, adaptable to all ages and abilities. It explains a conceptual framework for teaching dance in common language, highlights the kinesthetic sense as a guide for creating dance forms, provides methods of linking movement across the curriculum, addresses cultural material through creative dance, outlines teaching progressions that develop student skill and understanding, guides readers into building and presenting lessons of their own, provides models for assessing student learning, relates creative dance instruction to achievement standards in dance and other disciplines, offers over 25 well-tested lesson plans, and 40 adaptations that extend the lesson material.
