Law of Assignments of Life Policies (Classic Reprint) Charles Cole Hine, 2017-09-17 Excerpt from Law of Assignments of Life Policies Few questions relating to insurance have involved wider differences of judicial opinion than those regarding the assignment of life policies In many especially of the earlier cases the true character of the life insurance contract has not been fully comprehended while the general doctrine of assignments except in case of insolvency notwithstanding its importance seems to have received comparatively little attention at the hands of text writers As a natural consequence the legal principles which should control the transfer of such contracts have been differently interpreted Recent decisions which have not heretofore found their way into any of the ordinary text books have thrown a flood of additional light on this subject The value of a life policy largely depends upon the power of transfer The want of a work for the bench the bar and those engaged in the business of life insurance in which the decisions on this subject are analyzed compared and if possible harmonized has been the motive for the preparation of the present volume The aim has been to give special prominence to the most recent rulings and to indicate in so far as it can be done without usurping the functions of the courts those views which have received the best judicial support About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Consolidated Statutes of**
