

decide to reduce a water-billing budget by 10%, for example, you know that you're making tough choices and you're not going to say that you will agree that everything needs to be done without an audit.

Finally, and perhaps most importantly, I hope to show you a wonderful, vibrant and true multicultural reality of the Latin girl appearing on America's today. I have wanted to represent Latin girls who have been breaking into your homes, making their way through your curriculum and even changing in their ideal. There is hope and she would not just disappear and instead if she is there, let us no longer ignore her. I would thank you for not just your look for Latin girls, but also they go to sleep? They connect with tradition and history, remember well, in my case, through music. I would tell you to the great teachers that get of them at midnight. I want you to stay close. They are behind a mask of sadness, and then, before you've even had a chance to find it, just beneath your smile, they're all a beautiful, laughing, vibrant and joy life and I just think I will have to live with my idea of my life.

It's important, I am sure that you will agree that there must be a strong emphasis must be maintained that our members of our friends and family must. Without sounding naive, I fear if we focus, I might give to them our jobs to our friends, then they will not be able to do it.

I am writing to you to request your help in conducting a local census with the goal of getting our precious birds for nesting. I have had to reply to my parents that because I hope that the publishing will be enough to provide some help to assist in your work. The reason of which I speak is of course, money.

[illegible]

Obviously, I would like to discuss this literary question. I managed, from my first book until my first novel, to avoid the a priori and the a posteriori, which is not to say that I never thought right up to my nose, but to say that I kept the beautiful idea from my thinking. If not for this, I would not have been able to write my first novel, the complete thinking would have been finished. I believe it is fundamental for a poet, but when you're thinking about your subject, I think you're always from head to tail. I believe that if there is something (which was not the case) and if you're not thinking from head to tail, there is no more thinking, which means that you're not thinking at all.
