This book is appropriate for a one or two semester junior or graduate level course in biostatistics, biometry, quantitative biology, or statistics and assumes a prerequisite of algebra.

Burns and Grove's The Practice of Nursing Research - E-Book Jennifer R. Gray, Susan K. Grove, 2020-07-21 Winner of the 1st place American Journal of Nursing Book of the Year award in nursing research evidence-based practice for 2021. Selected for Doody's Core Titles 2024 with Essential Purchase designation in Research. Burns coverage of the research process, application for evidence-based health care, how to analyze data, determine outcomes, and disseminate research, and how to propose and seek funding for research. Strong emphasis on evidence-based practice addresses this key graduate-level QSEN competency and reinforces how to generate research evidence and appraise and synthesize existing research for application to clinical practice. Rich examples from nursing literature bring research principles to life. Emphasis on the most currently used research methodologies focuses on the methods used in both quantitative research and qualitative research, as well as outcomes research and mixed methods research. Coverage of digital data collection examines the use of online research tools. Quick reference summaries include a table of research methods inside the front cover and a list of types of research syntheses with definitions inside the back cover. Helpful user resources are included with each new text purchase on the companion Evolve website and feature 400 interactive review questions along with a library of 10 full-text research articles.

Biological Anthropology of the Human Skeleton M. Anne Katzenberg, Anne L. Grauer, 2018-08-15 An indispensable resource on advanced methods of analysis of human skeletal and dental remains in archaeological and forensic contexts.
