ABSTRACT

Non-military defense is a defense to deal with non-military threats that can endanger or have implications for national defense. Non-military threats have ideological, political, economic, socio-cultural, technological, public safety, and legislation dimensions. In the general policy of national defense for the years 2020-2024, it is stated that in the policy of implementing non-military defense, it is directed to deal with the dimensions and types of threats by determining the ministry/institution as the main element. Bank Indonesia realizes that the payment system needs to adapt to the presence of digital technology. To that end, BI has issued a blueprint for the Indonesia Payment System (SPT) 2025, one of whose vision is to support the digitization of banking as the main institution in the digital-financial economy, both through open-banking and the use of digital technology and data in the financial business. The research objective is to provide government input on the role of Bank Indonesia in the Electronification of the Digital Economy as a Form of Non-Military Defense. Research with qualitative methods is aimed at understanding social phenomena from the perspective of participants. The results achieved are in accordance with the Role theory that Bank Indonesia encourages banking digitalization, supports the integration of the national digital economy, ensures interlink fintech and banking, to ensure consumer protection and national interests are maintained.

Introduction

Non-military defense, also known as non-military defense, is a national defense force built within the framework of national development to achieve national prosperity and prepared to face non-military threats. The non-military defense layer is structured in security functions for public safety which includes handling natural disasters and other humanitarian operations, socio-cultural, economic, defense psychology, which in essence relates to state defense awareness thinking, and technology development (Ambodo 2022).

The main point of the general policy on national defense for 2020-2024 states that the policy for implementing non-military defense is directed at dealing with the dimensions and types of threats by determining the ministries/agencies as the main elements and ministries/agencies and local governments as supporters of the implementation of non-military defense (Arifin 2022). Bank Indonesia (BI) has launched the National Non-Cash Movement (GNNT) on August 14, 2014 which aims to create a safe, efficient and smooth
