The Origins of Life and Evolutionary Theory

Multiple-Choice: Choose the one alternative that best completes the statement or answers the question.

- Which of the following would not be considered evidence that two different organisms shared a recent common ancestor?
A. similarities in their DNA
B. similarities in their embryological development
C. the presence of analogous structures
D. the presence of homologous structures
- The human appendix can be classified as a(n) _____ since it has no known function necessary to human survival.
A. analogous structure
B. homologous structure
C. vestigial structure
D. all of the above
- The similarity in the body shape and fins of a shark and a porpoise is an example of _____.
A. co-evolution
B. convergent evolution
C. divergent evolution
D. vestigial structures
- The wings of a bat when compared to the wings of a bird can be classified as _____ because they are anatomically similar they have any similar embryological origins.
A. analogous structures
B. homologous structures
C. vestigial structures
D. all of the above
- An organism that is well adapted to its environment and reproduces more successfully than other organisms within the same population is a result of that organism's _____.
A. fitness
B. reproductive efficiency
C. longevity
D. health
- Which of the following pairs of structures is homologous?
A. an alligator leg and a human forearm
B. horse leg and a bird wing
C. a bat wing and a dolphin flipper
D. a penguin wing and a seal flipper
E. all of the above
- What does the presence of a vestigial structure in a modern organism indicate?
A. The structure was probably functional and necessary to the survival of some ancestor of the modern organism but no longer has any functional purpose for that organism.
B. There is a limited number of genes that can be expressed during the lifetime of an organism thereby resulting in some structures becoming vestigial.
C. The structure became vestigial in the modern organism because the organism did not use this structure often enough.
D. Vestigial structures are still present in most modern organisms so that they may later reuse that structure if the need arises.
- Which of the following would be likely to cause adaptation?
A. mutation
B. genetic drift
C. natural selection
D. all of the above
- Natural selection apparently favors peacocks with big tails. Why?
A. Males with big tails live longer
B. They are healthier than other males
C. They have more reproductive success
D. They can escape predators more easily
- Which of the following structures is homologous to the wing of a bat?
A. The wing of a fly
B. The arm of a man
C. The eye of a newt
D. The tongue of an adder
- The notion that educated persons will have smarter children is consistent with the ideas of :
A. Darwin
B. Linnacus
C. Curvier
D. Lamarck
E. Hutton
- Which species is most likely to survive changing environmental conditions?
A. a species that reproduces sexually
B. a species that has a limited life span
C. a species that has few variations
D. a species that competes with similar species
- Which statement is not part of the concept of natural selection?
A. More individuals are produced than will survive.
B. Individuals that possess the most favorable variations will have the best chance of reproducing.
C. Genes of an individual adapt to a changing environment.
D. Variation occurs among individuals in a population.
- Similarity in the skeletal structures of whales, bats, and humans leads to the conclusion that they
A. have the same chromosome number
B. belong to the same order of mammals

Who's the New Kid in Chemistry? John D. Butler, 2013-12-12 Who's the New Kid in Chemistry offers an unprecedented look at student engagement and teacher best practices through the eyes of an educational researcher enrolled as a public high school student Over the course of seventy nine consecutive days John D Butler participates in and observes Rhode Island 2013 Teacher of the Year Jessica M Waters's high school chemistry class documenting his experiences as they unfold Who's the New Kid in Chemistry is a compelling example of what can be accomplished when an educational researcher and teacher collaborate in the classroom This work includes a discussion on flexible homework assignments data driven instruction and thirty teacher best practices This book is an invaluable resource for teachers across all content areas masters and doctoral research method classes and future Teachers of the Year *Cambridge International AS/A Level Biology Study and Revision Guide Third Edition* Mary Jones, Matthew Parkin, 2022-01-21 Stretch yourself to achieve the highest grades with structured syllabus coverage varied exam style questions and annotated sample answers to help you to build the essential skill set for exam success Benefit from expert advice and tips on skills and knowledge from experienced subject authors Effectively manage your revision with a brand new introduction that clearly outlines what is expected from you in the exam Keep track of your own progress with a handy revision planner Use the new glossary index section to identify and address gaps in knowledge Consolidate and apply your understanding of key content and skills with short Test yourself and exam style questions **A Psychological Study of Immigrant Children at Ellis Island** Bertha May Boody, 1926 **Online, Blended, and Distance Education in Schools** Tom Clark, Michael Barbour, 2023-07-03 Co Published with the Microsoft Corporation Online Blended and Distance Education in Schools provides students enrolled in Education Technology Educational Administration and related Masters and PhD programs with expert opinions and insights on the practice and policy in K 12 online blended and distance education online and blended programs including curriculum instruction technology and management aspects It describes the status and trends of the field provides illustrative program examples explores the issues and challenges that programs face and highlights ongoing research in key areas related to program effectiveness Topics discussed The current status of K 12 online distance and blended learning in the U S Policy funding and management issues in relation to program implementation Research on effective programs within governmental jurisdiction and various program types Global case studies that represent the variety of ways programs are being successfully implemented A synthesis of key findings and lessons learned and local and global visions for the future of K 12 distance and online learning This text is highly appropriate for students enrolled in Educational Technology Educational Administration and related Masters and PhD programs An online companion resource provides pedagogical features that enhance text use in a classroom setting *The Routledge International Handbook of Island Studies* Godfrey Baldacchino, 2018-06-13 From tourist paradises to immigrant detention camps from offshore finance centres to strategic military bases islands offer distinct

identities and spaces in an increasingly homogenous and placeless world The study of islands is important for its own sake and on its own terms But so is the notion that the island is a laboratory a place for developing and testing ideas and from which lessons can be learned and applied elsewhere The Routledge International Handbook of Island Studies is a global research based and pluri disciplinary overview of the study of islands Its chapters deal with the contribution of islands to literature social science and natural science as well as other applied areas of inquiry The collated expertise of interdisciplinary and international scholars offers unique insights individual chapters dwell on geomorphology zoology and evolutionary biology the history sociology economics and politics of island communities tourism wellbeing and migration as well as island branding resilience and commoning The text also offers pioneering forays into the study of islands that are cities along rivers or artificial constructions This insightful Handbook will appeal to geographers environmentalists sociologists political scientists and one hopes some of the 600 million or so people who live on islands or are interested in the rich dynamics of islands and island life

Island James Lazell, 2005-11 The most refreshing and entertaining expose on island biogeography I've read in ages Gregory K Pregill University of San Diego

Ocean City and Vicinity Water Resources Study, Restoration of Assateague Island, Worcester County, 1998

[Decline and Recovery of the Island Fox](#) Timothy J. Coonan, Catherin A. Schwemm, David K. Garcelon, 2010-07-22 Native only to the California Channel Islands the island fox is the smallest canid in North America Populations on four of the islands were threatened to extinction in the 1990s due to human mediated predation and disease This is the first account of the natural history and ecology of the island fox illustrating both the vulnerability of island ecosystems and the efficacy of cooperative conservation measures It explains in detail the intense conservation actions required to recover fox populations such as captive breeding and reintroduction and large scale ecosystem manipulation These actions were successful due in large part to extraordinary collaboration among the scientists managers and public advocates involved in the recovery effort The book also examines the role of some aspects of island fox biology characteristic of the island syndrome in facilitating their recovery including high productivity and an apparent adaptation to periodic genetic bottlenecks

Ancient Geopolymers in South America and Easter Island Joseph Davidovits, 2024-11-16 This book presents the study on Ancient Geopolymers in South America and Easter Island regions exploring the artificial nature of the volcanic rocks used in the construction of Easter Island's statues Contrary to the belief that the statues were carved and transported Davidovits suggests they were made on site using geopolymer technology He proposes that this knowledge came from Amerindians from the Andes specifically the Tiahuanaco region near Lake Titicaca The book is divided into two parts the first examines geopolymeric artificial stone technologies in the Andes and the second establishes a connection between these technologies and Easter Island 3 700 km away Davidovits research includes geological expeditions SEM analysis petrography and a comprehensive review of international literature It is intriguing to observe that in both cases Pumapunku Tiwanaku in the Andes and Easter Island volcanic rocks are involved which contain

biological carbon These discoveries undeniably support the theory of geopolymeric artificial manufacturing challenging traditional archaeological views ,1991
