

Chemicals Required

NB Ensure that all reagents are bulked before distributed.

1 The chemicals required are described in general terms below.

2 Where quantities are specified for each candidate (shown against each listed item), they are meant as guides only and are quantities greater than candidates will normally need to use. It is suggested that about 80% of the specified quantities should be distributed to candidates with the remainder kept as a central reserve. More material may be supplied if requested by candidates, without penalty.

Where relevant, spare material should be available to cover accidental loss.

3 Each candidate needs the following quantities.

FA1 100cm³

FA2 150cm³

Distilled/Deionised water 500cm³

Detailed Identities of Chemicals Required

1 It is especially important that great care is taken that the confidential information given below does not reach the candidates either directly or indirectly.

2 The identities of the chemicals with FA code numbers are as follows.

FA1 is 0.60 mol dm⁻³ hydrogen peroxide prepared by diluting 36.0 cm³ "20 volume" to 1 dm³. This solution must be prepared as close as possible to the start of the examination and kept chilled in a refrigerator and issued to candidates at the latest possible time.

[To confirm the concentration of this solution, the Supervisor is asked to dilute 25.00 to 250 cm³ and titrate 25.0 cm³ of this diluted solution against the 0.02 mol dm⁻³ manganate (VII) to be used in the examination. The titre should be between 24 – 25 cm³. Adjust solution FA1 to give a titre within this range.]

NB: In centres with large numbers of candidates, it is essential that titration results are provided for each session and for each laboratory within the session. These Supervisor's results should be obtained at the same time and under the same conditions as those experienced by the candidates.

3 **FA2** is 0.010 M KMnO₄.

4 1.0 M H₂SO₄ labelled as such.

Cambridge International AS and A Level Economics Revision Guide Susan Grant, 2013-03-18 Cambridge International AS and A Level Economics Revision Guide helps students prepare for the Cambridge examination Cambridge International AS and A Level Economics Revision Guide provides guidance on tackling the different types of questions set by the examination board It includes advice on revision and essay writing as well as clear summaries of the syllabus content Sustainability, Civil Society and International Governance John J. Kirton, 2017-11-28 How can civil society and global governors come together in new ways to improve links among trade environmental and social values In this important and wide ranging volume an unparalleled array of contributors examines the many new processes of civil society engagement that have been introduced at the local regional and global levels Assessing what more can be done to strengthen the productive partnerships between civil society and global governance the book draws on the extensive inventory of existing practices and community based alternatives to demonstrate how particular mechanisms for civil society participation in global governance have enhanced or impeded the specific economic environmental and political outcomes that many seek to achieve **Free Speech after 9/11** Katharine Gelber, 2016-04-14 Although there has been a lot written about how counter terrorism laws impact on human rights and civil liberties most of this work has focussed on the most obvious or egregious kinds of human rights abrogation such as extended detention torture and extraordinary rendition Far less has been written about the complex ways in which Western governments have placed new and far reaching limitations on freedom of speech in this context since 9 11 This book compares three liberal democracies the United States the United Kingdom and Australia in particular showing the commonalities and similarities in what has occurred in each country and the changes in the appropriate parameters of freedom of speech in the counter terrorism context since 9 11 achieved both in policy change and the justification for that change In all three countries much speech has been criminalized in ways that were considered anachronistic or inappropriate in comparable policy areas prior to 9 11 This is particularly interesting because other works have suggested that the United States unique protection of freedom of speech in the First Amendment has prevented speech being limited in that country in ways that have been pursued in others This book shows that this kind of argument misses the detail of the policy change that has occurred and privileges a textual reading over a more comprehensive policy based understanding of the changes that have occurred The author argues that we are now living a new normal for freedom of speech within which restrictions on speech that once would have been considered aberrant overreaching and impermissible are now considered ordinary necessary and justified as long as they occur in the counter terrorism context This change is persistent and it has far reaching implications for the future of this foundational freedom Globalisation Great Britain: Parliament: House of Commons: Treasury Committee, 2007-10-16 Globalisation is having an enormous impact on the UK s economy creating significant challenges for policy making with the shift in economic power from West to East particularly

the rise of China and India in the global economy The effects will be on felt on highly skilled jobs as well as some less skilled employment and public policy needs to respond to the likely implications for the labour market The Committee s report considers domestic policy challenges relating to the promotion of innovation and improving the business environment and the skills base in the economy and issues discussed include the drivers of globalisation trade and protectionism global imbalances as well as the beneficial and adverse effects of globalisation for the UK economy The Committee recommends that in order to promote understanding of the impact of globalisation on jobs and communities the Government should publish an annual review of new developments affecting the impact of and prospects for globalisation Given that protectionist sentiment is increasing posing a threat to the progress of both developed and developing countries the Committee supports the Government s promotion of a successful conclusion to the Doha trade round Globalisation is also threatened by the risk of a disorderly unwinding of global imbalances and the success of a reformed International Monetary Fund will be judged by its performance in ensuring global imbalances are properly addressed

Historical Perspectives of Fisheries Exploitation in the Indo-Pacific Joseph Christensen, Malcolm Tull, 2014-04-01 The waters of the Indo Pacific were at the centre of the global expansion of marine capture fisheries in the twentieth century yet surprisingly little has been written about this subject from a historical perspective This book the first major study of the history of fishing in Asia and Oceania presents the case studies completed through the History of Marine Animal Populations HMAP initiative It examines the marine environmental history and historical marine ecology of the Indo Pacific during a period that witnessed the dramatic escalation of industrial fishing in these seas
