Peabody Institute of the City of Baltimore ... George Peabody Library, 1883 **Male Bonds in Nineteenth-Century**

Art Thijs Dekeukeleire, Henk de Smaele, Marjan Sterckx , 2022-01-10 Masculinities in nineteenth century art through the lens of gender and queer history Male bonds were omnipresent in nineteenth century European artistic scenes impacting the creation presentation and reception of art in decisive ways Men's lives and careers bore the marks of their relations with other men Yet such male bonds are seldom acknowledged for what they are gendered and historically determined social constructs This volume shines a critical light on male homosociality in the arts of the long nineteenth century by combining art history with the insights of gender and queer history From this interdisciplinary perspective the contributing authors

present case studies of men's relationships in a variety of contexts which range from the Hungarian Reform Age to the Belgian fin de siècle. As a whole the book offers a historicizing survey of the male bonds that underpinned nineteenth century art and a thought provoking reflection on its theoretical and methodological implications.
