the home page of the book on the Internet where the audio tracks are available for listening and downloading is listed at the beginning of the book on the copyright page *A Guide to Writing Arabic* Sara Hoffmeier,2012 One of the myths surrounding Arabic is that the script is impossible to learn This is not true Writing Arabic is much easier than you would imagine Arabic uses an alphabet not hieroglyphs or pictograms And there are far fewer shapes to master in Arabic than in the European languages In Arabic there is really only one basic shape for each of the 28 letters of the alphabet There are no capital letters and there is no real distinction between print and handwriting Furthermore writing from right to left is not as difficult as many people would imagine In many ways it is a more natural movement to be pushing the pen rather than pulling it certainly for someone who is right handed This guide will take you through the Arabic alphabet letter by letter explain how to write each letter how to combine the letters and it will provide plenty of opportunities for practise This guide is also a great first introduction to the Arabic language **Arabic Alphabet For Beginners** Ahmed Artsen,2020-06-08 Do you want to learn how to write the Arabic Alphabet Letters Easily The letters of the Arabic Alphabet are special shapes unknown in the English language This Arabic Writing Book is ideal for beginners to help them form and write the Arabic letters of the first level The letters of the alphabet are special because they are written in different ways depending on where they are located in the word In this workbook you will practice writing the basic Arabic letters What you will find in this workbook the 28 letters of the basic Arabic alphabet hamza bonus guide arrows that show you how to form the letters review the different letters to better understand how they work almost blank pages without examples to practice independently This book is suitable for both adults and children
