Architecture Oriented Otherwise Writing Matters:

Architecture Oriented Otherwise David Leatherbarrow, 2009 So much writing about architecture tends to evaluate it on the basis of its intentions how closely it corresponds to the artistic will of the designer the technical skills of the builder or whether it reflects the spirit of the place and time in which it was built making it not much more than the willful or even subconscious assemblage of objects that result from design and construction techniques Renowned writer and thinker David Leatherbarrow in this groundbreaking new book argues for a richer and more profound but also simpler way of thinking about architecture namely on the basis of how it performs Not simply how it functions but how it acts its manner of existing in the world including its effects on the observers and inhabitants of a building as well as on the landscape that situates it In the process Leatherbarrow transforms our way of discussing buildings from a passive technical or programmatic assessment to a highly active and engaged examination of the lives and performances intended and otherwise of buildings Drawing on an encyclopedic reading of contemporary philosophy as well as from the work of architects whose work he admires including Peter Zumthor Renzo Piano Le Corbusier and Frank Lloyd Wright Leatherbarrow challenges us to fundamentally reconsider the way we think about buildings and ask architects to think about their buildings in a vastly wider context opening up the possibility of creating works that are richer in meaning quality and life In asking for and presenting a sea change in the way of thinking about buildings and their design **Architecture Oriented Otherwise** is required reading for anybody who makes or cares about architecture

Deep Skin Architecture Timo Carl, 2019-04-25 Timo Carl presents alternatives to curtain wall facades and other flat boundaries creating autonomous spaces He investigates facade typologies with multiple material layers to strategize the relationship between buildings and their environment By revisiting Le Corbusier's seminal *brise soleil* an alternative reading of the modern project emerges one that is not based on classical compositional rules but instead on the dynamic relationships with environmental forces Finally an exciting series of project based investigations sets out innovative ways in which novel deep skins combine energy conscious performance with the poetics of architecture

Houses, Ten Details Edward R. Ford, 2009-07 The author explores the history of five designs from among many that he generated for a small urban lot he purchased near the center of Charlottesville Virginia Reading Architecture and Culture

Adam Sharr, 2012-11-12 Architecture displays the values involved in its inhabitation construction procurement and design It traces the thinking of the individuals who have participated in it their relationships and their involvement in the cultures where they lived and worked In this way buildings their details and the documents used to make them can be read closely for cultural insights Introducing the idea of reading buildings as cultural artefacts this book presents perceptive readings by eminent writers which demonstrate the power of this approach The chapters show that close readings of architecture and its materials can test commonplace assumptions help architects to appreciate the contexts in which they work and indicate ways to think more astutely about design The readings collected in this innovative and accessible book address buildings specifications and photographs They range in time from the fifteenth century examining the only surviving drawing made by Leon Battista Alberti to the recent past projects completed by Norman Foster in 2006 and Herzog and De Meuron in 2008 They range geographically from France to Puerto Rico to Kazakhstan and they range in fame from buildings celebrated by critics to house extensions and motorway service areas Taken together these essays demonstrate important research methods which yield powerful insights for designers critics and historians and lessons for students **Behind**

Architectural Filters Miguel Guitart, 2022-03-24 Behind Architectural Filters Phenomena of Interference explores the active role of architectural filters in generating physically and sensory charged spatial experiences The book addresses how the material and the psychological strategies of permeable physical boundaries determine our perceptual experiences of the spaces we occupy This book explores architectural filters as connecting mechanisms capable of conjuring unique atmospheres that integrate the participation of several agents The text analyzes ten case studies grouped under five generative parameters origin density thickness function and message Each study investigates the main aspects of the filters internal genesis and the character of the spaces informed by them The cases illustrate a broad geographic cultural and historical scope and connect past tradition with contemporary design This methodology considers a historical and philosophical standpoint addressing vernacular constructive sustainable and sensory considerations Written for students and scholars of architectural history theory art design and philosophy Behind Architectural Filters Phenomena of Interference offers an unprecedented perspective on the production of spatial atmospheres bridging past and present while connecting thought and practice in a highly visual study Chapter 3 of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Constructions Michael Hensel, Christian Hermansen Cordua, 2015-05-04 The current trend for constructing experimental structures is now an international phenomenon It has been taken up worldwide by design professionals researchers educators and students alike There exist however distinct and significant tendencies

within this development that require further investigation This issue of AD takes on this task by examining one of the most promising trajectories in this area the rise of intensely local architectures In his seminal essay of 1983 Kenneth Frampton redefined Critical Regionalism by calling for an intensely local approach to architectural design Today Frampton s legacy is regaining relevance for a specific body of work in practice and education focused on the construction of experimental structures Could this ultimately provide the seeds for a compelling and alternative approach to sustainable design Contributors include Barbara Ascher Peter Buchanan Karl Otto Ellefsen David Jolly Monge Lisbet Harboe David Leatherbarrow Areti Markopoulou Philip Nobel Rodrigo Rubio S ren S S rensen Defne Sunguro lu Hensel Featured practices Renzo Piano Building Workshop Rintala Eggertsson SHoP Studio Mumbai TYIN tegnestue **Internet of Things (IoT)** S.Arun Joe Babulo,M.Arulprabhu ,2023-09-26 S Arun Joe Babulo Assistant Professor Department of BCA KSR College of Arts and Science for Women Tiruchengode Namakkal Tamil Nadu India M Arulprabhu Assistant Professor Department of BCA KSR College of Arts and Science for Women Tiruchengode Namakkal Tamil Nadu India **From Astrophysics to Unconventional Computation** Andrew Adamatzky,Vivien Kendon,2019-04-16 This Festschrift is a tribute to Susan Stepney s ideas and achievements in the areas of computer science formal specifications and proofs complex systems unconventional computing artificial chemistry and artificial life All chapters were written by internationally recognised leaders in computer science physics mathematics and engineering The book shares fascinating ideas algorithms and implementations related to the formal specification of programming languages and applications behavioural inheritance modelling and analysis of complex systems parallel computing and non universality growing cities artificial life evolving artificial neural networks and unconventional computing Accordingly it offers an insightful and enjoyable work for readers from all walks of life from undergraduate students to university professors from mathematicians computers scientists and engineers to physicists chemists and biologists *American Architectural History* Keith Eggener,2004-07-31 Offering some 30 essays this volume concentrates on recent writings by historians of American architecture urbanism The essays are arranged chronologically from colonial to contemporary accessible in thematic groupings
