Architecture For An Ageing Population

Lorraine Farrelly

Architecture For An Ageing Population:

Architecture for an Ageing Population International Association of Home and Services for the Ageing, 2014-03-14 This compilation of more than 20 outstanding projects in the areas of assisted living continuing care retirement communities and nursing homes represents the best current work designed by architects for the ever increasing population of the ageing and elderly Produced by IMAGES Publishing in association with the IAHSA *Architecture for an Ageing Population* complements the successful *Design for Aging* series Each project is presented with photographs detailed plans and statistics illuminating the high level of research planning and community involvement that goes into these advancements in living environments for seniors This comprehensive review of architectural design trends in aged care facilities will appeal to aged care providers developers users and advocates as well as architects interior designers landscapers and other design professionals

Creative Ageing Cities Keng Hua Chong, Mihye Cho, 2018-01-29 Ageing population and rapid urbanisation are the two major demographic shifts in today's world Architectural designs and urban policies have to deal with issues of an ever larger elderly population living in the cities especially in old urban neighbourhoods while also taking into consideration the evolving lifestyles and wellbeing of the diverse elderly demographic Being able to continue living in these existing urban neighbourhoods would thus require necessary interventions both to adapt the changing needs of the ageing population and to improve the deteriorating environment for better liveability *Creative Ageing Cities* discusses the participation and contribution of the ageing population as a positive and creative force towards urban design and place making particularly in high density urban contexts as observed in a collection of empirical cases found in rapidly ageing Asian cities This book is the first to bring together multidisciplinary scholastic research on ageing and urban issues from across top six ageing cities in Asia Singapore Seoul Tokyo Taipei Hong Kong and Shanghai Through these case studies this book gives a good overview of diverse challenges and opportunities in the various Asian urban contexts and offers a new perspective of an ageing and urban design framework that emphasises multi stakeholder collaboration inter generational relations and the collective wisdom of older people as a source of creativity

Designing for the Third Age Lorraine Farrelly, 2014-04-28 Highlights how architecture needs to rise to the challenge of a demographic revolution As people sixty five and older constitute an ever increasingly proportion of population in most industrialized nations the design of housing and other built provisions needs to be rethought in order to accommodate this ever expanding ageing population How can far reaching architectural solutions play a key part by creating sustainable cities for the changing profile of the population reducing models of dependency for care and transport while creating opportunities for recreation leisure and work This issue reflects on the population challenges facing Europe Australia North America and Asia offering innovative responses to these problems on a practical and speculative level Addresses a major social issue for architects designers and students Includes contributions from Arup Global Foresight Innovation Baroness Greengross President of the International Longevity Centre UK Matthias Hollwich of

HWKN Jerry Maltz of AIANY Design for Aging David Birbeck of Design for Homes Edward Denison Research Associate at University College London Kathryn Firth of the London Legacy Development Corporation Richard Mazuch of IBI Nightingale architect Walter Menteth author Jayne Merkel architect writer and researcher Terri Peters Anjali Raje Executive Director of International Longevity Centre India and architect Radhika Vaidya Robert Schmidt of the Adaptable Futures research group at Loughborough University Sally Stewart of Glasgow School of Architecture Mark Taylor of The University of Newcastle and Katherine Wilkinson of RMIT Features architects including Amie Gross Architects Ariktema Dattner Architects HWKN Deborah Gans Gans Studio JJW Architects Henning Larsen Architects Michael Maltzan Architecture nARCHITECTS Nord Architects PRP Architects and Yanmin Zhou *Architecture for Residential Care and Ageing Communities* Sten Gromark, Björn Andersson, 2020-10-19 Architecture for Residential Care and Ageing Communities confronts urgent architectural design challenges within residential innovation ageing communities and healthcare environments The increasing and diversified demands on the housing market today call for alterability and adaptability in long term solutions for new integrated ways of residing Meanwhile an accentuated ageing society requires new residential ways of living combining dignity independence and appropriate care Concurrently profound changes in technical conditions for home healthcare require rethinking healing environments This edited collection explores the dynamics between these integrated architectural and caring developments and intends to envision reconfigured environmental design patterns that can significantly enhance new forms of welfare and ultimately an improved quality of life This book identifies presents and articulates new qualities in designs in caring processes and healing atmospheres thereby providing operational knowledge developed in close collaboration with academics actors and stakeholders in architecture design and healthcare This is an ideal read for those interested in health promotive situations of dwelling ageing and caring *Livable Communities for Aging Populations* M. Scott Ball, 2012-03-15 An innovative look at design solutions for building lifelong neighborhoods Livable Communities for Aging Populations provides architects and designers with critical guidance on urban planning and building design that allows people to age in their own homes and communities The focus is on lifelong neighborhoods where healthcare and accessibility needs of residents can be met throughout their entire life cycle Written by M Scott Ball a Duany Plater Zyberk architect with extensive expertise in designing for an aging society this important work explores the full range of factors involved in designing for an aging population from social economic and public health policies to land use business models and built form Ball examines in detail a number of case studies of communities that have implemented lifelong solutions discussing how to apply these best practices to communities large and small new and existing urban and rural Other topics include How healthcare and disability can be integrated into an urban environment as a lifelong function The need for partnership between healthcare providers community support services and real estate developers How to handle project financing and take advantage of lessons learned in the senior housing industry The role of transportation access

connectivity and building diversity in the success of lifelong neighborhoods Architects urban planners urban designers and developers will find *Livable Communities for Aging Populations* both instructive and inspiring The book also includes a wealth of pertinent information for public health officials working on policy issues for aging populations

Housing Design for an Increasingly Older Population Victor Regnier, 2018-09-12 Longer lifespans and the needs of the oldest old are challenging the senior living industry to find bold and compassionate solutions to combine programs and services with housing Victor Regnier's latest research provides a thoughtful and insightful roadmap that arrays new ways of thinking from small scale settings to community based options International case studies offer possible solutions with the best thinking from around the globe all with Vic's unique perspective of extracting themes and concepts that are broadly applicable and essential to addressing the needs of those that live on life's fragile edge David Hoglund FAIA Supporting the independence of the oldest old is a tough problem Victor Regnier addresses in his latest book on aging and housing Like previous work Victor relies on the best practices of northern Europeans to outline a three prong approach First providing extremely comprehensive home care services in an apartment for life setting Second reforming the conventional nursing home by exploring small group style accommodations Third combining new technology with community based services to age in place Case studies document the experiences of others in making these programs work here and abroad The magnitude of the 90 and 100 population increases in the next 50 years make it clear how important it is to address this concern today Edward Steinfeld DArch The movement of health care from the institution to the home is a theme that Regnier identifies as one of the most important lessons in rethinking the issue of how to support the ever growing and increasingly aged older population here and abroad He examines simple but profound approaches we can take in making long term care a more humane proposition Familiar themes like humanizing technology and optimizing the impact of the natural environment are brought together with clear policy thinking about what we need to do The timing is good because the impact of this growing segment of society will have major repercussions on health care for the next 50 70 years Stephan Verderber Ph D A comprehensive guide to designing housing for the world's aging population The dilemma of helping older people maintain their independence through better housing with services is growing This book presents innovative solutions for those who create and provide housing for the world's increasingly longer living population By focusing on three specific housing and service arrangements it offers alternatives that provide greater freedom of choice than the current living arrangements that exist today It presents selected examples of housing and service solutions from the US Sweden Denmark and the Netherlands to stimulate thinking about the possibilities of community based service models *Housing Design for an Increasingly Older Population* looks at a trio of options for housing the oldest old the Dutch Apartment Condo for Life Model AFL decentralized Small Green Houses and the provision of enhanced personal and health care for people who want to stay in their own home It offers unique and eye opening chapters covering what older people want what age changes affect independence

demographics and living arrangements how long term care is defined concepts and objectives for housing the frail care giving and management practices that avoid an institutional lifestyle innovative case studies programs that encourage staying at home with service assistance therapeutic use of outdoor spaces how technology will help people stay independent and more Based on the author s numerous conversations with other experts as well as his examinations of high quality settings from Northern Europe and the US Building case study examples showcase innovative and compassionate solutions In depth coverage of three major systems that work Examines successful programs such as PACE Friendly Cities NORC and the Village to Village Network to demonstrate the progress made in helping older frail people stay in their own homes for as long as possible Housing Design for an Increasingly Older Population Redefining Assisted Living for the Mentally and Physically Frail is an important book for those who create design and manage assisted living and skilled nursing facilities as well as for those who set policies regarding health and personal care for our world s aging society EURAU 2016 - ABSTRACTS
