Leon, 2012-04-03 The human spirit is the most important and also the least understood aspect of human nature The most important because it is the essence of human beings the least understood because it has always remained impervious to science Although modern societies tend to boast of their hi tech level man s spirit has remained in prehistoric times In this book the concept of the human spirit is analyzed as a relation between humans and Nature subject only to the laws of Nature and thus devoid of any supernatural attributes Simple science concepts are used to explain the human spirit as well as other fundamental aspects of human nature like happiness and the meaning of life However no attempt is made to relate those concepts to any mystical concepts since that would be contrary to the purpose of this book *Awaken* Susan M.
