Accountability In Restorative Justice Clarendon Studies In Criminology:

Accountability in Restorative Justice Declan Roche,2003 In reviving the idea of an informal approach to conflict resolution the Restorative Justice movement attempts to break out of the predominantly punitive thinking which shapes modern criminal justice Its proponents claim that its guiding ideals personalism participation reparation and reintegration deliver a fairer more effective and more humane justice than does the court system However a simplistic tendency both to extol the virtues of restorative justice and to denigrate all conventional formal approaches risks blinding enthusiasts to the dangers inherent in unchecked participant power as well as to the protection which state institutions and professionals can provide to individuals and communities The procedural safeguard of institutional accountability helps reduce these dangers Examining the experiences of 25 programmes in six countries **Accountability in Restorative Justice** uncovers a number of neglected overlapping and incomplete types of accountability including the informal type built into deliberations between victims and offenders and their supporters This deliberative accountability can provide a rigorous check for regulating decision making holding state agencies accountable and monitoring the completion of agreements reached between participants This book also considers the role played by formal types of accountability such as external review It suggests a new approach in which judges become more involved in monitoring the quality of deliberation in restorative justice conferences than with enforcing traditional sentencing principles **Accountability in Restorative Justice** Declan

Roche,2023 Addressing a key concern about restorative justice this book draws on fieldwork from 25 programmes in six countries to investigate what form checks and balances exist to prevent degeneration into a kangaroo court Proposals for strengthening accountability in restorative justice programmes are made **Handbook of Restorative Justice** Gerry Johnstone,Daniel Van Ness,2013-01-11 This book provides a comprehensive and authoritative account and analysis of restorative justice one of the most rapidly growing phenomena in the field of criminology and justice studies This book aims to meet the need for a comprehensive reliable and accessible overview of the subject It draws together leading authorities on the subject from around the world in order to elucidate and discuss the key concepts and principles of restorative justice explain how the campaign for restorative justice arose and developed into the influential social movement it is today describe the variety of restorative justice practices explain how they have developed in various places and contexts and critically examine their rationales and effects identify and examine key tensions and issues within the restorative justice movement brings a variety of disciplinary and interdisciplinary perspectives to bear upon the understanding and assessment of restorative justice The **Handbook of Restorative Justice** is essential reading for students and practitioners in the field

Child Victims and Restorative Justice Tali Gal,2011-07-11 Children are the group most likely to be victimized yet least likely to report the crimes against them Because of their unique vulnerability an elaborate set of protections tries to secure their safety at home in school and in the community yet they often experience further trauma inside the very criminal justice

system designed to punish those who harm them. Such a system can leave child victims without emotional healing and a sense of justice because it does not consider the full scope of their wishes, interests, and rights. This failure can be attributed to the system's tendency to view children as objects of protection instead of legitimate rights holders. Here, using a nuanced, multi-dimensional theory of children's interrelated rights and needs vis-à-vis victimization, Tali Gal presents an innovative restorative justice model for repairing harms and rebuilding relationships in the wake of crimes against children. It validates empirically documented children's needs such as telling their stories, asking questions, and a sense of autonomy and control over the proceedings, and holds their associated and often overlooked rights such as rehabilitation and their overarching best interests paramount. The rich theoretical underpinnings of the book are vividly illustrated by examples of successful restorative justice programs involving children, including the highly controversial inclusion of child victims of sexual assault. In addition, a set of eight heuristics provides a convenient reference for restorative justice programs to ensure that they safeguard the full range of child victims' needs and rights at all times. With its unique human rights perspective on the study of childhood victimization and an innovative child-inclusive restorative justice model, this book promises to be a touchstone for practitioners, policymakers, and researchers concerned with children's well-being in the aftermath of crime and violence.

The Emotional Dynamics of Law and Legal Discourse Heather Conway, John Stannard, 2016-12-15. In his seminal work *Emotional Intelligence*, Daniel Goleman suggests that the common view of human intelligence is far too narrow and that emotions play a much greater role in thought, decision-making, and individual success than is commonly acknowledged. The importance of emotion to human experience cannot be denied, yet the relationship between law and emotion is one that has largely been ignored until recent years. However, the last two decades have seen a rapidly expanding interest among scholars of all disciplines into the way in which law and the emotions interact, including the law's response to emotion and the extent to which emotions pervade the practice of the law. In *The Emotional Dynamics of Law and Legal Discourse*, a group of leading scholars from both sides of the Atlantic explore these issues across key areas of private law, public law, criminal justice, and dispute resolution, illustrating how emotion infuses all areas of legal thought. The collection argues for a more positive view of the role of emotion in the context of legal discourse and demonstrates ways in which the law could, in the words of Goleman, become more emotionally intelligent.

Managing High Risk Sex Offenders in the Community Karen Harrison, 2010-03-01. This book explores these issues, evaluating the

Restorative Approaches to Conflict in Schools Edward Sellman, Hilary Cremin, Gillean McCluskey, 2013-09-05 Drawing on recent international developments in criminal justice Restorative Approaches to Conflict in Schools highlights the long term ineffectiveness of punitive models of discipline in education contexts and examines an alternative approach underpinned by the principles of restorative justice This approach provides an opportunity for adults and young people to engage with a range of processes such as group conferencing and peer mediation whereby conflict and harm are confronted and repaired a future rather than past orientation is developed relationships are built upon the values and attitudes of respect inclusion and equality pupils learn inter personal and problem solving skills as well as social responsibility staff develop skills and confidence in working restoratively the risk of future repeat problems is minimised and a positive school ethos is developed These approaches have proven to be highly effective in criminal justice systems around the world and are beginning to be applied more widely in educational contexts This edited volume draws together for the first time contributions from an interdisciplinary field of international experts and practitioners on the subject and offers both critique and guidance in order that the implementation of restorative approaches in schools may be undertaken thoughtfully and sustainably This exciting new text will be a key reference book for locating contemporary international and inter disciplinary debate in the field
