Accounting Text And Cases:

Accounting: Texts and Cases Robert N. Anthony, Kenneth A. Merchant, David Hawkins, 2010-05-05 Accounting Text Cases is a product of lifelong dedication to the discipline of accounting. Covering both financial and managerial accounting as well as broader managerial issues, the book incorporates a breadth of experience that is sure to enrich your course and your students. The approximately 109 cases that make up most of the end of chapter material are a combination of classic Harvard style cases and extended problems, with 12 complete new cases added to the 13th edition. The text is covered as two parts. Part 1 deals with chapters 1-14 which cover financial accounting, while part 2 covers Chapters 15-28 which in essence is associated with management accounting. The tail end of part 2 also focuses on broader issues of control and corporate strategy. Both parts have been updated to reflect the current changes relevant to Accounting. Accounting, Text and Cases Robert Newton Anthony, James S. Reece, 1989. This edition contains a total of 121 cases which have been selected because of their interest and educational value as a basis for class discussion. **Accounting** Robert Newton Anthony, David F. Hawkins, Kenneth A. Merchant, 2003. This reader brings together modern material from a wide range of Christian theologians on the meaning and status of the doctrine of creation, its relation to scientific theories, our understanding of God and the theology of redemption and its implications for our proper attitude to the world of Nature. **Accounting** Robert N. Anthony, Reece, 1989. ACCOUNTING Text and Cases 10 E is a 28 chapter book. Chapters 1-14 cover financial accounting, while Chapters 15-21 cover management accounting, and Chapters 22-28 focus on broader issues of control and corporate strategy. The approximately 120 cases that largely make up the end of chapter material are a combination of classic Harvard style cases as well as extended problems. New to this edition is the inclusion of 2-3 problems per chapter. These problems, while not as involved as the case material, allow the students to exercise the concepts demonstrated in each chapter. The goal of the problem material is to provide a transition to the case material, which is a response to customer requests. **Accounting** Robert Newton Anthony, Kenneth A. Merchant, 2004. This new edition covers both financial and managerial accounting followed by broader managerial issues. The 120 cases that make up the end of chapter material are a combination of classic Harvard style cases as well as extended problems.
