Sociology of Underdevelopment Rajendra Pandey, 1976 Encyclopedia of Political Economy: L-Z Phillip Anthony O'Hara, 1999 Based on developments in political economy since the 1960s this text is a compendium of the main principles concepts problems institutions schools and policies associated with political economy It is a comprehensive introduction to the field **Towards a Political Economy of Degrowth**, Ekaterina Chertkovskaya,, Alexander Paulsson, Stefania Barca, 2019-10-04 Since the 1970s the degrowth idea has been proposed by scholars public intellectuals and activists as a powerful call to reject the obsession of neoliberal capitalism with economic growth an obsession which continues apace despite the global ecological crisis and rising inequalities In the past decade degrowth has gained momentum and become an umbrella term for various social movements which strive for ecologically sustainable and socially just alternatives that would transform the world we live in How to move forward in an informed way without reproducing the existing hierarchies and injustices How not to end up in a situation when ecological sustainability is the prerogative of the privileged direct democracy is ignorant of environmental issues and localisation of production is xenophobic These are some of the questions that have inspired this edited collection Bringing degrowth into dialogue with critical social theories covering previously unexplored geographical contexts and discussing some of the most contested concepts in degrowth the book hints at informed paths towards socio ecological transformation *The Shadow that Lingers* Allan D Cooper, 2023-06-05 Allan D Cooper demonstrates how the resistance to slavery served to unveil the nature of freedom that made possible the abolition movement and anti colonial struggles The corpus of human rights law that has evolved over the past two centuries is constructed around the negation of slavery This book analyzes how slavery mutated into racial identification that governments enforce against their own population to advance more efficient methods of discipline and control *The Shadow*

that Lingers reveals how race is used to traumatize human beings by embodying inferiority and powerlessness even for whites that claim privilege under racialized regimes As an ideology of power race becomes contextualized to fit local cultures resulting in contradictory understandings of race from one culture to another This book focuses attention on how racial hybridity among mixed race communities poses challenges for racial purists and how such communities endeavor to construct racial identities that often differentiate themselves from being black The book concludes with an analysis of how the pursuit of freedom inevitably requires the reification of a non racial identity
