

ACER Scholarship Tests

ACER Scholarship Tests – Written Expression

Two topics for writing will be set to allow you to use different styles of writing. They are presented as two separate tests. About one and a half A4 pages of ruled paper will be provided for each test, but you are not asked to make the pieces of writing any special length, and quality is more important than length. This part of the test is concerned with your ability to express your thoughts and feelings in writing. What you have to say and the way you say it will be assessed.

In assessing written expression markers at ACER consider the following elements:

Thought and Content

The quality of what is said in the piece of writing.

- What is made of and developed from the task
- The kinds of thoughts and ideas presented in response to the task

Structure and Organisation

The quality of the structure and organisation developed to respond to the topic

- The shape and form of the writing piece
- The sequence and coherence of the writing piece

Expression, Style and Mechanics

The quality of the language used to organise and present what is said.

- The effectiveness and appropriateness of the language
- The expressiveness and fluency of the language
- The control of the ‘mechanics’ of English (grammar, punctuation, sentence structure)

The stimulus material you are given must be the basis of your writing. You will be penalised if you seem to be presenting a piece of writing that is not developed from the stimulus. Respond to the stimulus in the way that is most interesting to you, and which best displays your ability to write and express yourself.

The stimulus may be a picture, a statement or a combination of the two. The stimulus may allow you to:

- tell a real or imaginary story
- describe a situation, incident or scene
- outline or explain something and/or
- express a point of view or present an argument

Some topics might suggest that you write a story, others might suggest a conversation, a discussion or reflection. Whichever style you choose, be aware that it is clear, expressive, engaging and interesting writing that is being sought. Read the topics carefully. Spend some time thinking about each of the topics. If you finish before time is up, go over your work and make any alterations you feel may improve your writing.

A Parent's Guide to Scholarship Tests Rebecca Leech, 2009 Preparing applying and sitting for a scholarship test can be a gruelling and competitive process for a child and

the child's parents and the disappointment of not being awarded a scholarship can be demoralising and disappointing. Scholarship tests aim to identify the very best potential students for an elite school from a pool of outstanding candidates. To be of any use, scholarship tests must find often very small differences in the academic performance of very high achieving students. A Parent's Guide to Scholarship Tests aims to help parents better understand scholarship tests so that they can help their child do their best when it counts. The book contains detailed information about the CSTP, PSP, SST and ACEP scholarship tests, advice on preparing for the test, example questions and sample answers with detailed explanations, strategies and approaches, suggestions on helping your child develop the skills and abilities the tests target, advice on how to manage expectations and better understand results, case studies and advice from participating schools. *Annual Report* Australian Council for Educational Research, 1984. *Critical Studies of Education in Asia* Leonel Lim, Michael W. Apple, 2020-06-09. *Critical Studies of Education in Asia* features analyses that take seriously the complex postcolonial historical and cultural consciousnesses felt across societies in Asia and that bring these to bear on the changing terrain of knowledge, subjectivities and power relations constructed both within schools and across the public sphere. In documenting the multiple sites of conflict and contestation both between and within states in Asia and a host of pedagogic agents, ministries of education, state boards and agencies, schools, teachers and teacher unions, university departments of education, local interest groups, the media, international standards agencies and global educational reform discourses, the chapters in this volume illuminate the struggles over knowledge, education and the work of schools. Faced with emergent global and local forces that are determined to challenge official knowledge and to offer alternative understandings of education and society in Asia, this volume offers critical insights for academic researchers, policy makers and graduate students seeking to understand the tensions and possibilities of educational change in the region. This book was originally published as a special issue of *Curriculum Inquiry*. *The ... Mental Measurements Yearbook* Oscar Krisen Buros, 1941. **The Australian Council for Educational Research, 1930-80** William Fraser Connell, 1980. This book is a comprehensive history of the Australian Council for Educational Research throughout the 50 years of its existence. It is based on an examination of the archival material accumulated at the ACER, the Carnegie Corporation of New York, the Australian Archives and the records of the Australian Education Council. It examines the interest and impact of the Carnegie Corporation on the early years of the ACER, reports on the development of educational research in Australia and the influence of the ACER on it. The ACER's interest in educational and psychological measurement is explained and its range of other activities in publication, curriculum development and educational service is described. **The Australian Mathematics Teacher**, 1976.
