Ottenheim, 2021-01-11 In early modern times scholars and architects investigated age old buildings in order to look for useful sources of inspiration They too occasionally misinterpreted younger buildings as proofs of majestic Roman or other ancient glory such as the buildings of the Carolingian Ottonian and Stauffer emperors But even if the correct age of a certain building was known buildings from c 800 1200 were sometimes regarded as Antique architecture since the concept of Antiquity was far more stretched than our modern periodisation allows This was a Europe wide phenomenon The results are rather diverse in style but they all share an intellectual and artistic strategy a conscious revival of an ancient architecture whatever the date and origin of these models Contributors Barbara Arciszewska Lex Bosman Ian Campbell Eliana Carrara Bianca de Divitiis Krista De Jonge Emanuela Ferretti Emanuela Garofalo Stefaan Grieten Hubertus G nther Stephan Hoppe Sanne Maekelberg Kristoffer Neville Marco Rosario Nobile Konrad Ottenheim Stefano Piazza and Richard Schofield

Gothic Revival in Europe and Britain: Sources, Influences, and Ideas Georg

Germann, 1973 Most analyses of the nineteenth century Gothic revival in architecture have treated it as an essentially English phenomenon This work is one of the few to consider the important parallel developments in Europe and thus set the movement in proper international perspective One interesting aspect of the Gothic revival is its development in notably different national ways Dr Germann examines the semantics of Gothic and style in Italian French and English and shows how each country's concept of style influenced the choice of particular Gothic modes and forms In England the Gothic revival went hand in hand with liturgical revivals French art historians saw the renewal of the Gothic style as a nationalistic tribute to a golden age in France's history The Germans welcomed it as an opportunity for practical craft training Contributions to the three key architectural journals of this period *The Ecclesiologist* the *Annales archeologiques* and the *Kolner Domblatt* are examined as evidence of the spirit behind the work No understanding of the Gothic revival would be complete without also putting it into historical perspective Dr Germann examines the events leading up to the Gothic revival its beginnings doctrinal aspects eventual decline and finally historical significance His analysis looks forward to Gaudi and the Bauhaus as well as back to Vitruvius Although this book focuses primarily on the ideas of the period rather than on specific works of architecture there are 98 illustrations including drawings and plans depicting some of the principal buildings There are also extensive footnotes and a thematic bibliographical index
