Black Workers Struggle For Equality In Birmingham Working Class In American History:

Black Workers' Struggle for Equality in Birmingham Horace Huntley, David Montgomery, 2004 Now in paper this volume is the first set of annotated oral interviews from the front lines of the Civil Rights Movement to be undertaken by the Birmingham Civil Rights Institute Interviewees recount their struggles against discrimination both in and outside of the workplace showing how collective action whether through unions the Movement or networks of workplace activists sought to gain access to better jobs municipal services housing and less restrictive voter registration This is a powerful work that reconsiders the links of the labor movement to the struggle for civil rights *Encyclopedia of U.S. Labor and Working-class History* Eric Arnesen, 2007 Publisher Description *Death and Dying in the Working Class, 1865-1920* Michael K. Rosenow, 2015-04-15 Michael K Rosenow investigates working people's beliefs rituals of dying and the politics of death by honing in on three overarching questions How did workers their families and their communities experience death Did various identities of class race gender and religion coalesce to form distinct cultures of death for working people And how did people's attitudes toward death reflect notions of who mattered in U S society Drawing from an eclectic array of sources ranging from Andrew Carnegie to grave markers in Chicago's potter's field Rosenow portrays the complex political social and cultural relationships that fueled the United States industrial ascent The result is an undertaking that adds emotional depth to existing history while challenging our understanding of modes of cultural transmission **The Making of Working-Class Religion** Matthew Pehl, 2016-09-08 Religion has played a protean role in the lives of America's workers In this innovative volume Matthew Pehl focuses on Detroit to examine the religious consciousness constructed by the city's working class Catholics African American Protestants and southern born white evangelicals and Pentecostals between 1910 and 1969 Pehl embarks on an integrative view of working class faith that ranges across boundaries of class race denomination and time As he shows workers in the 1910s and 1920s practiced beliefs characterized by emotional expressiveness alliance with supernatural forces and incorporation of mass culture's secular diversions into the sacred That gave way to the more pragmatic class conscious religion cultures of the New Deal era and from the late Thirties on a quilt of secular working class cultures that coexisted in competitive though creative tension Finally Pehl shows how the ideology of race eclipsed class in the 1950s and 1960s and in so doing replaced the class conscious with the race conscious in religious cultures throughout the city An ambitiously inclusive contribution to a burgeoning field *The Making of Working Class Religion* breaks new ground in the study of solidarity and the sacred in the American heartland **Encyclopedia of African American History, 1896 to the Present** Paul Finkelman, 2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century **You Must Be from the North** Kimberly K. Little, 2009-10-20 You must be from the North was a common derogatory reaction to the activities of white women throughout the South well meaning wives and mothers who joined together to

improve schools or local sanitation but found their efforts decried as more troublesome civil rights agitation You Must Be from the North Southern White Women in the Memphis Civil Rights Movement focuses on a generation of white women in Memphis Tennessee born between the two World Wars and typically omitted from the history of the civil rights movement The women for the most part did not jeopardize their lives by participating alongside black activists in sit ins and freedom rides Instead they began their journey into civil rights activism as a result of their commitment to traditional female roles through such organizations as the Junior League What originated as a way to do charitable work however evolved into more substantive political action While involvement with groups devoted to feeding school children and expanding Bible study sessions seemed benign these white women s growing awareness of racial disparities in Memphis and elsewhere caused them to question the South s hierarchies in ways many of their peers did not Ultimately they found themselves challenging segregation more directly found themselves ostracized as a result and discovered they were often distrusted by a justifiably suspicious black community Their newly discovered commitment to civil rights contributed to the success of the city s sanitation workers strike of 1968 Dr Martin Luther King Jr s death during the strike resonated so deeply that for many of these women it became a defining moment In the long term these women proved to be a persistent and progressive influence upon the attitudes of the white population of Memphis and particularly on the city s elite

The Gospel of the Working Class Erik S. Gellman, Jarod Roll, 2011-07-15 In this exceptional dual biography and cultural history Erik S Gellman and Jarod Roll trace the influence of two southern activist preachers one black and one white who used their ministry to organize the working class in the 1930s and 1940s across lines of gender race and geography Owen Whitfield and Claude Williams along with their wives Zella Whitfield and Joyce Williams drew on their bedrock religious beliefs to stir ordinary men and women to demand social and economic justice in the eras of the Great Depression New Deal and Second World War Williams and Whitfield preached a working class gospel rooted in the American creed that hard productive work entitled people to a decent standard of living Gellman and Roll detail how the two preachers galvanized thousands of farm and industrial workers for the Southern Tenant Farmers Union and the Congress of Industrial Organizations They also link the activism of the 1930s and 1940s to that of the 1960s and emphasize the central role of the ministers wives with whom they established the People s Institute for Applied Religion This detailed narrative illuminates a cast of characters who became the two couples closest allies in coordinating a complex network of activists that transcended Jim Crow racial divisions blurring conventional categories and boundaries to help black and white workers make better lives In chronicling the shifting contexts of the actions of Whitfield and Williams The Gospel of the Working Class situates Christian theology within the struggles of some of America s most downtrodden workers transforming the dominant narratives of the era and offering a fresh view of the promise and instability of religion and civil rights unionism

Black Power at Work David Goldberg, Trevor Griffey, 2011-05-02 Black Power at Work chronicles the history of direct action campaigns to open up the construction

industry to black workers in the 1960s and 1970s The book s case studies of local movements in Brooklyn Newark the Bay Area Detroit Chicago and Seattle show how struggles against racism in the construction industry shaped the emergence of Black Power politics outside the U S South In the process community control of the construction industry especially government War on Poverty and post rebellion urban reconstruction projects became central to community organizing for black economic self determination and political autonomy The history of Black Power s community organizing tradition shines a light on more recent debates about job training and placement for unemployed underemployed and underrepresented workers Politicians responded to Black Power protests at federal construction projects by creating modern affirmative action and minority set aside programs in the late 1960s and early 1970s but these programs relied on voluntary compliance by contractors and unions government enforcement was inadequate and they were not connected to jobs programs Forty years later the struggle to have construction jobs serve as a pathway out of poverty for inner city residents remains an unfinished part of the struggle for racial justice and labor union reform in the United States Glass Towns Ken Fones-Wolf,2007 One of the central questions facing scholars of Appalachia concerns how a region so rich in natural resources could end up a symbol of poverty Typical culprits include absentee landowners reactionary coal operators stubborn mountaineers and greedy politicians In a deft combination of labor and business history Glass Towns complicates these answers by examining the glass industry s potential to improve West Virginia s political economy by establishing a base of value added manufacturing to complement the state s abundance of coal oil timber and natural gas Through case studies of glass production hubs in Clarksburg Moundsville and Fairmont producing window tableware and bottle glass respectively Ken Fones Wolf looks closely at the impact of industry on local populations and immigrant craftsmen He also examines patterns of global industrial restructuring the ways workers reshaped workplace culture and political action and employer strategies for responding to global competition unreliable markets and growing labor costs at the end of the nineteenth century **Wobblies on the Waterfront** Peter Cole,2010-10-01 The rise and fall of America s first truly interracial labor union For almost a decade during the 1910s and 1920s the Philadelphia waterfront was home to the most durable interracial multiethnic union seen in the United States prior to the CIO era For much of its time Local 8 was majority black always with a cadre of black leaders The union also claimed immigrants from Eastern Europe as well as many Irish Americans who had a notorious reputation for racism This important study is the first book length examination of how Local 8 affiliated with the Industrial Workers of the World accomplished what no other did at the time Peter Cole outlines the factors that were instrumental in Local 8 s success both ideological the IWW s commitment to working class solidarity and pragmatic racial divisions helped solidify employer dominance He also shows how race was central not only to the rise but also to the decline of Local 8 as increasing racial tensions were manipulated by employers and federal agents bent on the union s destruction
