Blasphemy Art That Offends:

Blasphemy S. Brent Plate, 2006 Through an examination of a broad range of contentious imagery in art this book questions the status of blasphemy in a world ever more divided in its views of what is acceptable and aims to provide a vantage point from which to view the interrelations between religion politics and the visual arts **Blasphemous Art?** Adriaan van Klinken, Nella van den Brandt, Mariecke van den Berg, 2024-10-31 This book explores the critical and transformative potential of arts and popular culture for constructions of religion gender and sexuality Doing so it deploys and develops the notion of blasphemous art honouring and building on the work of Anne Marie Korte Deliberately articulated with a question mark Blasphemous Art raises questions about the spaces methods and resources available to individuals and communities at the gendered sexual and racialized margins of society to tell their stories claim their bodies and perform symbolic and sacred meaning and it analyses the productive effects both aesthetically politically and theoretically of such provocative work The book focuses on a wide range of artistic and cultural expressions featuring case studies from across Europe South Africa Israel and the United States Drawing on feminist queer and postcolonial perspectives the book reveals the critical constructive and imaginative potential of the creative arts broadly defined and popular culture in its complex and diverse representation of and engagement with religious life belief text ritual and practice Blasphemy Yvonne Sherwood, 2021-08-26 In a world where not everyone believes in God blasphemy is surely a concept that has passed its use by date And yet blasphemy like God and religion seems to be on the rise In this Very Short Introduction Yvonne Sherwood asks why this should be the case looking at factors such as the increased visibility of religious and racial minorities new media and engines of surveillance which are far more omniscient than the old gods could ever be and the legacies of colonial blasphemy laws Throughout Sherwood uncovers new histories from the story of accidentally blasphemous cartoons to the close associations between blasphemy sex and birth control She also argues that blasphemy itself involves an inherent contradiction in imagining the divine as an entity that must be revered above all yet also a being that could possibly be hurt by anything that happens in the merely human sphere Unpicking some of the most famous cases of blasphemy Sherwood also looks at obscure instances asking why some blasphemies have become infamous while others have disappeared Very Short Introductions Brilliant Sharp Inspiring ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable **Memento Mori in Contemporary Art** Taylor Worley, 2019-11-28 This book explores how four contemporary artists Francis Bacon Joseph Beuys Robert Gober and Damien Hirst pursue the question of death through their fraught appropriations of Christian imagery Each artist is shown to not only pose provocative theological questions but also to question the abilities of theological speech to adequately address current attitudes to death When set

within a broader theological context around the thought of death Bacon's works invite fresh readings of the New Testament's narration of the betrayal of Christ and Beuys' works can be appreciated for the ways they evoke Resurrection to envision possible futures for Germany in the aftermath of war Gobeau's immaculate sculptures and installations serve to create alternative religious environments and these places are both evocative of his Roman Catholic upbringing and virtually haunted by the ghosts of his excommunication from that past Lastly and perhaps most problematically Hirst has built his brand as an artist from making jokes about death By opening fresh arenas of dialogue and meaning making in our society and culture today the rich humanity of these artworks promises both renewed depths of meaning regarding our exit from this world as well as how we might live well within it for the time that we have As such it will be a vital resource for all scholars in Theology the Visual Arts Material Religion and Religious Studies **Blasphemies Compared** Anne Stensvold, 2020-11-29

This volume examines both historical developments and contemporary expressions of blasphemy across the world The transgression of religious boundaries incurs more or less severe sanctions in various religious traditions This book looks at how religious and political authorities use ideas about blasphemy as a means of control In a globalised world where people of different faiths interact more than ever before and world views are an increasingly important part of identity politics religious boundaries are a source of controversy The book goes beyond many others in this field by widening its scope beyond the legal aspects of freedom of expression Approaching blasphemy as effective speech the chapters in this book focus on real life situations and ask the following questions who are the blasphemers who are their accusers and what does blasphemy accomplish Utilising case studies from Europe the Middle East and Asia that encompass a wide variety of faith traditions the book guides readers to a more nuanced appreciation of the historical roots political implications and religious rationale of attitudes towards blasphemy Incorporating historical and contemporary approaches to blasphemy this book will be of great use to academics in Religious Studies and the Sociology of Religion as well as Political Science Media Studies History *Outrage: Art, Controversy, and Society* R. Howells, A. Ritivoi, J. Schachter, 2012-10-10 A study of controversy in the arts and the extent to which such controversies are socially rather than just aesthetically conditioned The collection pays special attention to the vested interests and the social dynamics involved including class religion culture and above all power

The Oxford Handbook of Atheism Stephen Bullivant, Michael Ruse, 2013-11-21 Recent books by among others Sam Harris Richard Dawkins and Christopher Hitchens have thrust atheism firmly into the popular media and academic spotlight This so called New Atheism is arguably the most striking development in western socio religious culture of the past decade or more As such it has spurred fertile and often heated discussions both within and between a diverse range of disciplines Yet atheism and the New Atheism are by no means co extensive Interesting though it indeed is the New Atheism is a single historically and culturally specific manifestation of positive atheism the that there is no God's which is itself but one form of a far deeper broader and more significant global phenomenon The Oxford Handbook of Atheism is a pioneering edited volume

exploring atheism understood in the broad sense of an absence of belief in the existence of a God or gods in all the richness and diversity of its historical and contemporary expressions Bringing together an international team of established and emerging scholars it probes the varied manifestations and implications of unbelief from an array of disciplinary perspectives philosophy history sociology anthropology demography psychology natural sciences gender and sexuality studies literary criticism film studies musicology and in a range of global contexts Western Europe North America post communist Europe the Islamic world Japan India Both surveying and synthesizing previous work and presenting the major fruits of innovative recent research the handbook is set to be a landmark text for the study of atheism **Duty to Revolt** George Souvlis,Athina Karatzogianni,2023-11-09 This edited collection provides an innovative and comprehensive contribution to the study of historical revolutions and their commemoration as well as contemporary protests and uprisings and how they are communicated today in everyday networked media *Teaching Religion and Film* Gregory J Watkins,2008-08-22 In *Teaching Religion and Film* an interdisciplinary team of scholars thinks about the theoretical and pedagogical concerns involved with the intersection of film and religion in the classroom They examine the use of film to teach specific religious traditions religious theories and perspectives on fundamental human values Some instructors already teach some version of a film and religion course and many have integrated film as an ancillary to achieving central course goals This collection of essays helps them understand the field better and draws the sharp distinction between merely watching movies in the classroom and comprehending film in an informed and critical way **Biblical Blaspheming** Yvonne Sherwood,2012-09-06 This book explores the strange persistence of blasphemy in modern secular democracies by examining how accepted and prohibited ways of talking and thinking about the Bible and religion have changed over time In a series of wide ranging studies engaging disciplines such as politics literature and visual theory Yvonne Sherwood brings the Bible into dialogue with a host of interlocutors including John Locke John Donne and the 9 11 hijackers as well as artists such as Sarah Lucas and Ren Magritte Questions addressed include What is the origin of the common belief that the Bible as opposed to the Qur'an underpins liberal democratic values What kind of artworks does the biblical God specialise in If pre modern Jewish Christian and Islamic responses to scripture can be more critical than contemporary speech about religion how does this affect our understanding of secularity modernity and critique
