Blind Sight Moving Fiction:

Blindsight Matt Johnson, Prince Ghuman, 2020-05-19 Ever notice that all watch ads show 10 10 as the time Or that all fast food restaurants use red or yellow in their logos Or that certain stores are always having a sale You may not be aware of these details yet they ve been influencing you all along Every time you purchase swipe or click marketers are able to more accurately predict your behavior These days brands know more about you than you know about yourself Blindsight is here to change that With eye opening science engaging stories and fascinating real world examples neuroscientist Matt Johnson and marketer Prince Ghuman dive deep into the surprising relationship between brains and brands In Blindsight they showcase how marketing taps every aspect of our mental lives covering the neuroscience of pain and pleasure emotion and logic fear and safety attention and addiction and much more We like to think of ourselves as independent actors in control of our decisions but the truth is far more complicated Blindsight will give you the ability to see the unseeable when it comes to marketing so that you can consume on your own terms On the surface you will learn how the brain works and how brands design for it But peel back a layer and you ll find a sharper image of your psychology reflected in your consumer behavior This book will change the way you view not just branding but yourself too **Our Fictional Minds** David C.

Fisher, 2024-10-15 In Buddhism the self is not a thing but a process impermanent dependent and ultimately empty Our Fictional Minds explores this central truth in modern language tracing how identity forms through habit memory and mental fabrication Drawing from Buddhist teachings alongside neuroscience psychology and physics this revolutionary book shows how clinging to self stories leads to suffering David Fisher shows that when we try to manage the uncontrollable preserve what cannot last and explain what cannot be pinned down we reinforce suffering rather than escaping it Through psychological case studies meditation inspired reflections and clear writing Our Fictional Minds shows how Western science is only beginning to glimpse what Buddhist thought understood long ago that perception is shaped not found that mind is a maker of models not a mirror of truth Each chapter is a gentle dismantling of ego s constructions pointing not to despair but to freedom speaking to those who have sat on a cushion and watched the mind build identities from thoughts You ll find reflections on impermanence karma interdependence and the illusion of control But more than concepts the book encourages a practice to witness how we create our world and to loosen our grip The goal isn t to reject the self but to stop mistaking it for what we are For readers of Buddhist psychology modern brain science Zen philosophy or mindfulness traditions Our Fictional Minds offers a bridge between contemplative insight and modern life Our Fictional Minds invites you to pause the search for a solid self and consider the possibility that what you are is already wide open If liberation begins with seeing clearly this book helps clear the dust *They're Going to Love You* Meg Howrey, 2022-11-15 A NEW YORKER BEST BOOK OF 2022 A NEW YORK TIMES BEST BOOK OF THE MONTH A BELLETRIST BOOK CLUB PICK A gripping novel set in the world of professional ballet New York City during the AIDS crisis and present day Los Angeles Beautiful A finger trap puzzle

of a plot New York Times Book Review They're Going to Love You is my idea of a perfect book It is about art life death love and family and it is beautifully and sharply written I cried several times while reading it and was sorry to let it go when I was done I cannot recommend it enough Jami Attenberg New York Times bestselling author of The Middlesteins and All This Could Be Yours Throughout her childhood Carlisle Martin got to see her father Robert for only a few precious weeks a year when she visited the brownstone apartment in Greenwich Village he shared with his partner James Brilliant but troubled James gave Carlisle an education in all that he held dear in life literature music and most of all dance Seduced by the heady pull of mentorship and hoping to follow in the footsteps of her mother a former Balanchine ballerina Carlisle's aspiration to become a professional ballet dancer bloomed But above all else she longed to be asked to stay at the house on Bank Street to be a part of Robert and James's sophisticated world even as the AIDS crisis brings devastation to their community Instead a passionate love affair created a rift between the family with shattering consequences that reverberated for decades to come Nineteen years later when Carlisle receives a phone call that unravels the events of that fateful summer she sees with new eyes how her younger self has informed the woman she's become They're Going to Love You is a gripping and gorgeously written novel of heartbreaking intensity With psychological precision and a masterfully revealed secret at its heart it asks what it takes to be an artist in America and the price of forgiveness of ambition and of love *Blind Sight* James H.

Pence, 2003 Before Thomas Kent can commit suicide he receives a mysterious e-mail Now Thomas holds the only evidence for the destruction of a dangerous cult that threatens the country's future and he must cast aside his fear and act before it is too late **Reviewing Blindness in French Fiction, 1789-2013** Hannah Thompson, 2017-08-18 This book argues that the

most interesting depictions of blindness in French fiction are those which call into question and ultimately undermine the prevailing myths and stereotypes of blindness which dominate Western thought Rather than seeing blindness as an affliction a tragedy or even a fate worse than death the authors examined in this study celebrate blindness for its own sake For them it is a powerful artistic and creative force which offers new and surprising ways of describing and relating to reality Canonical and lesser known novels from a range of genres including the roman noir science fiction auto-fiction and realism are analyzed in detail to show how the presence of blind characters invites the reader to abandon his or her traditional reliance on the sense of sight and engage with the world in sensual and hitherto unexpected ways This book challenges everything we thought we knew about blindness and invites us to revel in the pleasures and perils of reading blind **Octavia E. Butler**

Gerry Canavan, 2016-10-31 I began writing about power because I had so little Octavia E. Butler once said Butler's life as an African American woman an alien in American society and among science fiction writers informed the powerful works that earned her an ardent readership and acclaim both inside and outside science fiction Gerry Canavan offers a critical and holistic consideration of Butler's career Drawing on Butler's personal papers Canavan tracks the false starts abandoned drafts tireless rewrites and real life obstacles that fed Butler's frustrations and launched her triumphs Canavan departs from

other studies to approach Butler first and foremost as a science fiction writer working within responding to and reacting against the genre's particular canon. The result is an illuminating study of how an essential SF figure shaped themes, unconventional ideas and an unflagging creative urge into brilliant works of fiction. **An Echo of Hope** Dianna Crawford, 2003. When Michael turns from war he finds his childhood love Hope Reardon but they must overcome past hurts so that their hearts can love again. *Bookseller & Stationer and Office Equipment Journal*, 1923. **Magical Realism in West African Fiction** Brenda Cooper, 2012-10-12. This study contextualizes magical realism within current debates and theories of postcoloniality and examines the fiction of three of its West African pioneers: Syl Cheney Coker of Sierra Leone, Ben Okri of Nigeria and Kojo Laing of Ghana. Brenda Cooper explores the distinct elements of the genre in a West African context and in relation to a range of global expressions of magical realism from the work of Gabriel Garcia Marquez to that of Salman Rushdie, wider contemporary trends in African writing with particular attention to how the realism of authors such as Chinua Achebe and Wole Soyinka has been connected with nationalist agendas. This is a fascinating and important work for all those working on African literature, magical realism or postcoloniality. **Explorations of Consciousness in Contemporary Fiction** Grzegorz Maziarczyk, Joanna Klara Teske, 2017-07-20. Explorations of Consciousness in Contemporary Fiction is a collection of essays examining the potential of the contemporary English language novel to represent and inquire into various aspects of the human mind. Grounded in contemporary literary theory as well as consciousness studies, the essays consider both narrative techniques by means of which writers attempt to render various states of consciousness such as multimodality in digital fiction or experimental typography in post-traumatic narratives and novelistic interpretations of issues currently being investigated by neurobiologists, cognitive scientists and philosophers of the mind such as the adaptive value of consciousness or the process of self-integration by means of self-narration. The volume thus offers critical reflection upon the novel's cognitive accomplishment in this challenging area. Contributors are Nathan D. Frank, Judit Friedrich, Justyna Galant, Marta Komsta, Peter Kristof Makai, Ajit Paul Mangat, Grzegorz Maziarczyk, James McAdams, Daniel Panka, Barbara Puschmann, Nalenz, Joanna Klara Teske, Lloyd Issac Vayo, Dora Vecserny, Sylwia Wilczewska.
