Bonnardthe Complete Graphic Work:

Bonnard Francis Bouvet,1981-01-01 Pierre Bonnard Pierre Bonnard,Nicole R. Myers,Allison Stielau,Metropolitan Museum of Art (New York, N.Y.),2009 The vibrant late paintings of Pierre Bonnard 1867 1947 are considered by many to be among his finest achievements Working in a small converted bedroom of his villa in the south of France Bonnard suffused his late canvases with radiant Mediterranean light and dazzling color Although his subjects were close at hand usually everyday scenes taken from his immediate surroundings such as the dining room table being set for breakfast or a jug of flowers perched on the mantelpiece Bonnard rarely painted from life Instead he preferred to make pencil sketches in small diaries and then rely on these along with his memory once in the studio This volume which accompanies the first exhibition to focus on the interior and related still life imagery from the last decades of Bonnard s long career presents more than seventy five paintings drawings and works on paper many of them rarely seen in public and in some cases little known Although Bonnard s legacy may be removed from the succession of trends that today we consider the foundation of modernism his contribution to French art in the early decades of the twentieth century is far more profound than history has generally acknowledged In their insightful essays and catalogue entries the authors bring fresh critical perspectives to the ongoing reappraisal of Bonnard s reputation and to his place within the narrative of twentieth century art Jacket Bonnard Francis Bouvet,1981

The Poster Ruth E. Iskin,2014-10-07 The Poster Art Advertising Design and Collecting 1860s 1900s is a cultural history that situates the poster at the crossroads of art design advertising and collecting Though international in scope the book focuses especially on France and England Ruth E Iskin argues that the avant garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s as well as in the adaptation of art to an era of mass media She moreover contends that this new form of visual communication fundamentally redefined relations between word and image poster designers embedded words within the graphic rather than using images to illustrate a text Posters had to function as effective advertising in the hectic environment of the urban street Even though initially commissioned as advertisements they were soon coveted by collectors Iskin introduces readers to the late nineteenth century iconophile a new type of collector curator archivist who discovered in poster collecting an ephemeral archaeology of modernity Bridging the separation between the fields of art design advertising and collecting Iskin s insightful study proposes that the poster played a constitutive role in the modern culture of spectacle This stunningly illustrated book will appeal to art historians and students of visual culture as well as social and cultural history media design and advertising **A Sourcebook of**

Gauguin's Symbolist Followers Russell T. Clement,Annick Houzé,Christiane Erbolato-Ramsey,2004-06-30 Paul Gauguin 1848 1903 played a seminal role in Post Impressionist France In his writings and work he favored emotional responses to nature over intellectual uses of lines color and composition In 1888 he and Emile Bernard developed a new style called Synthetism Three groups of Gauguin s symbolist followers Pont Aven Les Nabis and Rose Croix pursued and extended the

Synthetist vision This sourcebook focuses on the most prominent adherents of the three schools directly affected by Gauguin's symbolism This is the first comprehensive single volume guide and bibliography of artists in these three important French avant garde movements This work covers the entire careers of 16 artists by providing biographical sketches chronologies citations to primary and secondary literature and exhibitions

Painting and Sculpture in Europe, 1880-1940 George Heard Hamilton, 1993-01-01 This new edition of a book that offers the best available grounding in its huge subject as the Sunday Times called it includes color plates and a revised and expanded bibliography Professor Hamilton traces the origins and growth of modern art assessing the intrinsic qualities of individual works and describing the social forces in play The result is an authoritative guide through the forest of artistic labels Impressionism and Expressionism Symbolism Cubism Constructivism Surrealism etc and to the achievements of Degas and Cezanne Ensor and Munch Matisse and Kandinsky Picasso Braque and Epstein Mondrian Dali Modigliani Utrillo and Chagall Klee Henry Moore and many other artists in a revolutionary age

The Nabis and Intimate Modernism Katherine M. Kuenzli, 2017-07-05 Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul Signac and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres The Nabis and Intimate Modernism is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism's development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority

Recent Acquisitions: A Selection, 1987-1988, 1988

Interpreting Visual Culture Ian Heywood, Barry Sandywell, 2005-07-28 Interpreting Visual Culture brings together original writings from leading experts in art history philosophy sociology and cultural studies Ranging from an analysis of the role of vision in current critical discourse to discussion of specific examples taken from the visual arts ethics and sociology it presents the latest material on the interpretation of the visual in modern culture Among topics covered are the visual rhetoric of modernity the drawings of Bonnard recent feminist art practices and perception in arts and ethics

Adolf Loos Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that

was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth. His essay *Ornament and Crime* equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better. But the negation of ornament was supposed to reveal, not negate, good style, and an incorrigible ironist has been taken too literally in denying architecture as a fine art. Without normalizing his edgy radicality, Masheck argues that Loos' masterful astyle architecture was an appreciation of tradition and utility, and not, as most architectural historians have argued, a mere repudiation of the florid style of the Vienna Secession. Masheck reads Loos as a witty, ironic rhetorician who has all too often been taken at face value. Far from being the anti-architect of the modern era, Masheck's Loos is an unruly yet integrally canonical artist-architect. He believed in culture, comfort, intimacy, and privacy, and advocated the evolution of artful architecture. This is a brilliantly written revisionist reading of a perennially popular architect.
