

Greek Philosophers - Socrates, Plato, and Aristotle - Reading

SOCRATES

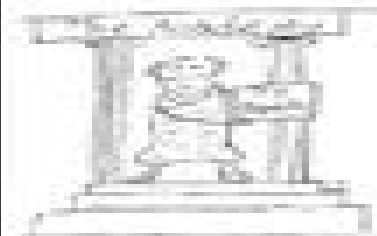

Considered the Father of Western Philosophy; Socrates was one of the first philosophers, which is a person that thinks about how the mind works and is always questioning things, actions, and ideas about the world. By always asking why and how, philosophers hope to find deeper meanings about life and to come up with new ways to view the world.

Socrates encouraged people to go out and collect new information themselves and come to their own conclusions. He did not like it when someone told someone else how to think, instead hoping people could think for themselves and come to their own conclusions about the mind and the world. According to Socrates, one's ideas should be discussed and debated so as to find any holes in one's thoughts.

Socrates developed a system known as the "Socratic Method" which involved someone constantly asking questions about someone's ideas or thoughts. By using the Socratic Method Socrates believed someone would be forced to defend their ideas, which encouraged critical thinking.

PLATO

One of Socrates' students, Plato became the main Greek Philosopher after the death of Socrates. Plato emphasized the importance of reason, which meant someone needed to be able to describe why they held certain ideas and beliefs. Plato believed that by constantly pushing reason it would cause someone to realize they only believed certain ideas because of personal opinions rather than logic and facts. Plato wanted people to make decisions only based on facts rather than opinions or bias.

Plato is most known for his book, *The Republic*, and his school, *The Academy*. *The Republic* outlines Plato's perfect government, children would be taken from their parents to be raised by the government, people making decisions that were just, and city-states run by a philosopher-king. These ideas, and many more, were

taught by Plato at *The Academy* in Athens. From this school sprung several generations of great thinkers that would go on to guide Greece into the future.

ARISTOTLE

Considered one of Plato's best students, Aristotle soon became the main Greek Philosopher after the death of Plato. Aristotle did not have a high opinion of his fellow Greek citizens. As a result he did not think democracy, where most people participate in the government, was a good idea. He believed that citizens would vote for what they personally wanted, rather than what was best for Greece as a whole. With so many people voting for their selfish needs, Aristotle thought Greece could not function and eventually fell.

Aristotle taught these and other ideas at his own school, known as *The Lyceum*. Aristotle's most famous student would be Alexander the Great. By learning to the words and wisdom of Aristotle Alexander the Great

used what he learned to take over Egypt, Persia, and lands all the way to the Himalayan Mountains.
