Path to Eternal Bliss with consciousness Indar Krishan Raina, 2021-02-04 This book discusses in detail the importance of maintaining the God consciousness to achieve God realization Without maintaining the God consciousness one may never touch the higher planes of self consciousness and at the end may land up disastrously nowhere The book is divided in 5 topics of Consciousness Spiritual Experiences and Miracles Holy Path Spiritual Quest and Renunciation Saint Khemraja chief disciple of Sage Vasaguta has said that the aspirants who do upasana and meditation day and night do not achieve anything even after years of practice These aspirants are ignorant in a way bound by worldly affairs and maya The realization of self has not taken place When full realization has not been achieved that when consciousness has not been filled with independent state of supreme God consciousness Till then everything is useless There will be no results There will be no progress on the path to God realization So it is very important to maintain Consciousness of Supreme God at all time for the real benefit of one's efforts The independent state of God consciousness is also found in each and every being In accordance with Vijnan Bhairav one must find this God consciousness To discover it one should concentrate on totality of individuality which is the state of universal consciousness By doing this practice one will get differentiated state of universal consciousness above the individuality of consciousness One has to be aware of God consciousness at all the times in true spirit with utmost love dedication and seriousness This God consciousness is most intoxicating if cultivated in right and true manner Without maintaining the consciousness the progress is hindered This consciousness should be endeavored to hold it in all the three states

An approach to self, Miss conception of achieving happiness from worldly objects through wealth health prestige and power and being ignorant of vast unfathomable ocean of bliss in Self realization is the cause of suffering and bondage in the circle of life and death This eternal truth preached by Upanishads along with four measures to be adopted for being eligible for self realization and thereafter meditating on four Mahavakyas extracted one from each of four Vedas is the only way to feel eternal Bliss and to be free from bondage of life and death has been explained by me in my two books Aatm chintnam in Hindi and An Approach to self in English

Losing Reality Robert Jay Lifton, 2019-10-15 A definitive account of the psychology of zealotry from a National Book Award winner and a leading authority on the nature of cults political absolutism and mind control In this unique and timely volume Robert Jay Lifton the National Book Award winning psychiatrist historian and public intellectual proposes a radical idea that the psychological relationship between extremist political movements and fanatical religious cults may be much closer than anyone thought Exploring the most extreme manifestations of human zealotry Lifton highlights an array of leaders from Mao to Hitler to the Japanese apocalyptic cult leader Sh k Asahara to Donald Trump who have sought the control of human minds and the ownership of reality Lifton has

spent decades exploring psychological extremism. His pioneering concept of the Eight Deadly Sins of ideological totalitarianism, originally devised to identify brainwashing or thought reform in political movements, has been widely quoted in writings about cults and embraced by members and former members of religious cults seeking to understand their experiences. In *Losing Reality*, Lifton makes clear that the apocalyptic impulse that of destroying the world in order to remake it in purified form is not limited to religious groups but is prominent in extremist political movements such as Nazism and Chinese Communism and also in groups surrounding Donald Trump. Lifton applies his concept of malignant normality to Trump's efforts to render his destructive falsehoods a routine part of American life. But Lifton sees the human species as capable of regaining reality by means of our protean psychological capacities and our ethical and political commitments as witnessing professionals. Lifton weaves together some of his finest work with extensive new commentary to provide vital understanding of our struggle with mental predators. *Losing Reality* is a book not only of stunning scholarship but also of huge relevance for these troubled times.
