Student Affairs Professionals Cultivating Campus Climates Inclusive of International Students Helen Park Jameson, J. Renay Loper, 2017-06-21 With the increase in the international student population student affairs professionals need a deeper understanding of the challenges and benefits of globalizing a campus

This volume Examines how student affairs professionals and their campus partners might welcome diverse populations of international students Provides strategies for enhancing interactions between international and domestic students as well as the greater campus community Offers innovative culturally competent approaches to working with international students Shares ways to inclusively and effectively educate and support international students to succeed on campuses in the USA Shares examples of innovative programs designed to increase cultural competence and be more inclusive of international students both inside and outside the classroom This sourcebook explores the various ways international students in the United States strengthen our country and campus communities further citizen diplomacy increase intercultural competency skills and develop more global mindsets This is the 158th volume of this Jossey Bass higher education quarterly series An indispensable resource for vice presidents of student affairs deans of students student counselors and other student services professionals New Directions for Student Services offers guidelines and programs for aiding students in their total development emotional social physical and intellectual

New Directions in the Anthropology of Dreaming Jeannette Mageo, Robin E. Sheriff, 2020-10-08 This book presents new directions in contemporary anthropological dream research surveying recent theorizations of dreaming that are developing both in and outside of anthropology It incorporates new findings in neuroscience and philosophy of mind while demonstrating that dreams emerge from and comment on sociohistorical and cultural contexts The chapters are written by prominent anthropologists working at the intersection of culture and consciousness who conduct ethnographic research in a variety of settings around the world and reflect how dreaming is investigated by a range of informants in ever more diverse sites As well as theorizing the dream in light of current anthropological and psychological research the volume accounts for local dream theories and how they are situated within distinct cultural ontologies It considers dreams as a resource for investigating and understanding cultural change dreaming as a mode of thinking through contesting altering consolidating or escaping from identity and the nature of dream mentation In proposing new theoretical approaches to dreaming the editors situate the topic within the recent call for an anthropology of the night and illustrate how dreams offer insight into current debates within anthropology s mainstream This up to date book defines a twenty first century approach to culture and the dream that will be relevant to scholars from anthropology as well as other disciplines such as religious studies the neurosciences and psychology

Research Methods for Librarians and Educators Ruth V. Small Ph.D., Marcia A. Mardis, 2018-04-19 Using an innovative real world approach that makes the research problem and method relevant and valuable to the reader this book provides a broad overview of research methods used in library and information studies and associated fields Research remains a core purpose of every library This book provides a text for LIS students and a practical handbook to librarians and other educators who need to conduct research in their libraries In Research Methods for Librarians and Educators contributors reinforce the essential nature of research and provide readers with the confidence that they can conduct research to find solutions to various problems and

improve their libraries and library programs The book details various research methodologies and uses a unique perspective on research that presents authentic scenarios to immediately make the research problem and method relevant and valuable to the reader It covers topics ranging from various research methods including Causal Collaborative Design Based Research Longitudinal and Mixed Methods as well as interview methods learning assessment literature review and observation and survey methods Each chapter includes questions intended to spark discussion and deeper reflection that make the book more useful in learning settings The summary charts throughout provide a handy and easy reference for readers who want a quick refresher on the research method without rereading the entire chapter
