Climate Change Emily Boyd, Emma L. Tompkins, 2010-09-21 Climate change is the greatest single problem we face as a planet This important introduction skilfully guides us through the complex mix of scientific political social and environmental issues to examine the manifold threats it poses and explore the possible futures for our world Focusing on the fact that the point of no return may in fact have already been passed Boyd and Tompkins highlight the urgent need to start actively adapting to our changing climate if we want to avoid complete catastrophe *The Complete Guide to Climate Change* Brian Dawson, Matt Spannagle, 2008-11-28 An authoritative and easy to use A to Z guide to the key scientific geographical and socio political concepts central to the study of climate change Taking you through the latest thinking on global warming environmental damage and risk this book has everything you will need to know perhaps the biggest issue facing mankind today *The global impact of climate change* P. Martens, N. Arnell, M. Hulme, R. Nicholls, Andrew White, 1999 *Climate Change* Mark Maslin, 2021-08-19 Very Short Introductions Brilliant Sharp Inspiring In the last few years global awareness of climate change has grown very rapidly through the school strikes led by Greta Thunberg groups like Extinction Rebellion the IPCC's recent high impact reports tv documentaries and declarations from governments around the world that we are in a climate emergency This awareness is continuing to grow as the science shows us that our planet and our species are facing a massive crisis which we ourselves have caused Climate change is one of the few scientific theories that make us examine the whole basis of modern society It is a challenge that has politicians arguing sets nations against each other queries individual

lifestyle choices and ultimately asks questions about humanity's relationship with the rest of the planet. This Very Short Introduction draws on the very latest science from the 2021 IPCC Report examining the evidence that climate change is already happening and discussing its potential catastrophic impacts in the future. Mark Maslin also explores the geopolitics of climate change and the win-win solutions we can employ to avoid the very worst effects of climate change. Throughout he demonstrates how we must develop new modes of thinking for the 21st century at individual, corporate, and government levels to collectively tackle the challenge of climate change.
