A definition:

A disciplined process of enquiry conducted **by & for** those taking the action. The primary reason for engaging in action research is to assist the "**actor**" in improving and/or refining his or her actions.

"If you want to truly understand something, try to change it."
Kurt Lewin

Step One - Identify a research Q

Starting with the right question is crucial. Follow the process below to get yours right.

- 1 What problem needs 'fixing' in your classroom.
- 2 Find the root cause of this problem.
- 3 What strategy do you intend to try out?
- 4 Is this strategy likely to impact on the root cause?

All 110 pupils, or only certain groups?
Are they reading effectively?
Do they know how to structure their answers?
110 pupils aren't attempting 6-10 mark GCSE Science questions.

Is it a teacher issue or 'grouped' pupils?
Is it only Science questions or do other subjects have the same issue?

Step Two - Carry out the action research

Action Research Craig A. Mertler, 2024-06-25 Action Research Improving Schools and Empowering Educators Seventh Edition introduces both beginning and experienced educators to the process of designing and conducting classroom based action research This practical text focuses on research methods and procedures that educators can use in their everyday instructional practices classroom activities and school settings The SAGE Encyclopedia of Action Research David Coghlan, Mary Brydon-Miller, 2014-08-11 Action research is a term used to describe a family of related approaches that integrate theory and action with a goal of addressing important organizational community and social issues together with those who experience them It focuses on the creation of areas for collaborative learning and the design enactment and evaluation of liberating actions through combining action and research reflection and action in an ongoing cycle of cogenerative knowledge While the roots of these methodologies go back to the 1940s there has been a dramatic increase in research output and adoption in university curricula over the past decade This is now an area of high popularity among academics and researchers from various fields especially business and organization studies education health care nursing development studies and social and community work The SAGE Encyclopedia of Action Research brings together the many strands of action research and addresses the interplay between these disciplines by presenting a state of the art overview and comprehensive breakdown of the key tenets and methods of action research as well as detailing the work of key theorists and contributors to action research *Action Research* S. Michael Putman, Tracy Rock, 2016-12-29 Action Research Using Strategic Inquiry to Improve Teaching and Learning is a core text for the Action Research course in Education The proposed text seeks to address the needs of practitioners as it will be primarily written for use within a graduate level action research class It will be oriented towards proactive planning as part of an organized efficient process for developing and conducting an action research study The book will be organized around implementation of the action research process using self regulatory principles which is characterized by four phases task definition goal setting and planning enacting and adapting

These four phases will be addressed as the learner considers what action research encompasses and a topic to be studied then proceeds to establish a plan and enact it This overall process is organized as can be seen in the Table of Contents Michael Putnam and Tracy Rock will highlight methods and processes that incorporate formative data that is readily available to teachers facilitating associations between classroom instruction and the action research process The text will also reinforce how action research can improve the teaching and learning process by reinforcing or changing perceptions about the use of informal data including anecdotal notes or observations in the research process A Short Guide to Academic Writing Andrew P. Johnson, 2003-03-17 This author believes that writing is a matter of finding out what it is you have to say organising your thoughts and putting the right words together to communicate your ideas This book sets out the important ideas related to writing *Action Research Primer* Patricia H. Hinchey, 2008 Despite the fact that publishers and policy makers have had increasing influence over classrooms it is the teacher who must make decisions on a minute by minute basis about what will help specific students learn Similarly local administrators must make key decisions at the school and district level that will best serve particular communities of teachers students and parents Action research offers educators and other stakeholders a systematic way to research and reflect on specific students classrooms schools and communities in order to solve local problems and improve local conditions This book offers an overview of various definitions and perspectives on action research without prescribing any single approach Instead key questions are explored Who conducts action research Why How Possible answers sketch the many types of possible projects ranging from an individual teacher trying to improve the experience of a particular student to a group of educators and community members striving to improve local socioeconomic conditions The Action Research Primer presents an accessible but comprehensive introduction to the field providing a basic compass and map for the interested practitioner Chapters include a brief historical overview an introduction to competing research paradigms discussion of key issues that inform project design a serviceable guide to process and an extensive list of resources pointing to more detail on the many categories communities and publication outlets of action research
