Application Principles Selection Inheritance Political:

Political Descent Piers J. Hale, 2014-08-05 Historians of science have long noted the influence of the nineteenth century political economist Thomas Robert Malthus on Charles Darwin. In a bold move Piers J. Hale contends that this focus on Malthus and his effect on Darwin's evolutionary thought neglects a strong anti-Malthusian tradition in English intellectual life one that not only predated the 1859 publication of the *Origin of Species* but also persisted throughout the Victorian period until World War I. *Political Descent* reveals that two evolutionary and political traditions developed in England in the wake of the 1832 Reform Act: one Malthusian, the other decidedly anti-Malthusian and owing much to the ideas of the French naturalist Jean Baptiste Lamarck. These two traditions, Hale shows, developed in a context of mutual hostility, debate, and refutation. Participants disagreed not only about evolutionary processes but also on broader questions regarding the kind of creature our evolution had made us and in what kind of society we ought therefore to live. Significantly, and in spite of Darwin's acknowledgement that natural selection was the doctrine of Malthus applied to the whole animal and vegetable kingdoms, both sides of the debate claimed to be the more correctly Darwinian. By exploring the full spectrum of scientific and political issues at stake, *Political Descent* offers a novel approach to the relationship between evolution and political thought in the Victorian and Edwardian eras.

Science and the Founding Fathers: Science in the Political Thought of Thomas Jefferson, Benjamin Franklin, John Adams, and James Madison

I. Bernard Cohen, 1997-01-17 General readers, students of American history, and professional historians alike will profit from reading this engaging presentation of an aspect of American history conspicuously absent from the usual textbooks and popular presentations of the political thought of early America. Thomas Jefferson was the only president who could read and understand Newton's *Principia*. Benjamin Franklin is credited with establishing the science of electricity. John Adams had the finest education in science that the new country could provide, including Pneumatics, Hydrostatics, Mechanics, Statics, Optics. James Madison, chief architect of the Constitution, peppered his *Federalist Papers* with references to physics, chemistry, and the life sciences. For these men, science was an integral part of life, including political life. This is the story of their scientific education and of how they employed that knowledge in shaping the political issues of the day, incorporating scientific reasoning into the Constitution. *The Reader's Guide in Economic, Social and Political Science* Richard Rogers Bowker, George Iles, 1891

Geostrategic Psychology and the Rise of Forbearance

JIANG Peng, 2022-09-30 Based on the framework of geostrategic psychology, this book elucidates the intrinsic law of the rise and fall of great powers and gives insights into the quandary of China's rise and the mechanism behind the strategy. Conflating geopolitics and strategic psychology, geostrategic psychology is rooted in the historical study of strategy and premised on an assumption that human beings bear resemblance in psychology and behavior when facing the same structure of geopolitical circumstance. The book analyzes intriguing phenomena from strategic psychology, including trend anxiety and conflict willingness, the Old Man Phenomenon in international politics, the Santa Claus Effect, the Myth of

the Sunk Cost Fallacy Bidder Myth Gambler's Game Philip Trap William's Dilemma Heartland Myth Domino's Fear Golden Nation Myth Alliance Commitment Dilemma and Corinthian Dilemma among others The author combines theory history and the practice of international politics revealing how a nation can occupy a favorable position in the field of global strategic competition and prospects for China The title will be a valuable reference for observers of international politics as well as researchers and students interested in international relations international politics geopolitics strategic psychology and geostrategic psychology

Principles of Political Economy, with Some of Their Applications to Social Philosophy John Stuart Mill, 1896 **The reader's guide in economic, social, and political science, ed. by R.R. Bowker and G.**

Iles Richard Rogers Bowker, 1891 **The Nature and Types of Sociological Theory** Don Martindale, 2013-11-05 First Published in 1998 This is Volume XI of twenty two in a series on Social Theory and Methodology Notions are widespread that sociological theory is either an industrious activity on the drawing boards of the architects of fantasy or a branch of esoterics operating in a shadowy realm of semi darkness The present study holds neither of these conceptions of sociological The present study's function is to illuminate the difference between one theory and another The power and reliability of a theory are not always evident all at once A theory may have a power to explain what was not originally anticipated it may also disclose the existence of problems it cannot explain Principles of Political Economy with Some of Their Applications to Social Philosophy by John Stuart Mill, 1871 Victorian Political Thought on France and the French G.

Varouxakis, 2002-02-17 By scrutinizing the major Victorian political thinkers perceptions and representations of France this book shows how comparisons with the country on the other side of the Channel its politics civilization and the French national character contributed to nineteenth century Britain's self definition While the utterances on France of several other figures are also examined the main focus is on Walter Bagehot John Stuart Mill Matthew Arnold Lord Acton Thomas Carlyle Nassau William Senior James Fitzjames Stephen William Rathbone Greg Thomas Babington Macaulay John Morley and Frederic Harrison *The National Union Catalog, Pre-1956 Imprints* Library of Congress, American Library Association. Committee on Resources of American Libraries. National Union Catalog Subcommittee, 1969
