

THE INDUSTRIAL REVOLUTION

The Beginning

- Britain's population is around 5.700.000
- more production of machines made possible
- "Manufacturing Industry is the driver for technological change"
- Increase of production: hand, steam, electricity

Why start in Britain in England?

Material Resources

- England's rich natural resources provided the following:
- coal... fueled the heat
- iron ore... to build machines
- water for energy prior to the steam engine

The Agricultural Revolution

- crop rotation... fields with various seedlings for growing
- New mechanical farm tools... working faster and more efficiently than the previous old tools

Political Environment in Britain

- The rapid growth required a more stable political environment
- The second half of political centralization in England
- government supports business
- the state used for political and economic centralization

Education

- education policy: the British Government was quickly established
- manufacturing by James Watson's patent machine
- manufacturing by Henry Bessemer's technology changes steel

Impact of the Industrial Revolution: global environmental change
