Hepatobiliary and Pancreatic Surgery is part of the Master Techniques in Surgery Series which presents common and advanced procedures in the major subspecialties of general surgery. The series is overseen by Josef E Fischer MD, editor of the classic two volume reference *Mastery of Surgery: Hepatobiliary and Pancreatic Surgery*, which depicts surgery of the liver, hepatobiliary tree, and pancreas including cholecystectomy and hepatic resections. Both laparoscopic and open procedures are depicted. The book is written by acknowledged master surgeons, emphasizes surgical procedures, and is lavishly illustrated with original full color drawings. Each chapter briefly assesses indications, contraindications, and preoperative planning before fully explaining and illustrating the procedure in step by step detail. Outcomes, complications, and follow up are also discussed. Each chapter ends with a brief reference list. A companion website will offer the fully searchable content of the book and procedural videos. **Master Techniques in Surgery: Hepatobiliary and Pancreatic Surgery** Keith D.
