Balanced Leadership For Powerful Learning:

Balanced Leadership for Powerful Learning Bryan Goodwin, Greg Cameron, Heather Hein, 2015-08-24 What makes a great school leader Contrary to what many believe the answer is not tied to a certain kind of personality but to specific behaviors and actions that have positive effects on student achievement behaviors and actions that any school leader can learn and put into practice Over the last decade thousands of school principals have done that by implementing balanced leadership an approach that recognizes the need to both maintain and challenge the status quo in order to move schools forward Building on the analysis that was first reported in *School Leadership That Works* the authors of *Balanced Leadership* identify the 21 responsibilities associated with effective leadership and show how they relate to three overarching responsibilities Establishing a clear focus keeping the work and the conversations targeted on the issues that matter most Managing change understanding how to skillfully steer through the challenges associated with making improvements both large and small and Developing a purposeful community creating a sense among all teachers and staff that they are invested in student outcomes and that they can make a difference For each of these areas key points and specific practices are described in detail and illustrated with stories from school principals who have successfully learned how to become great leaders Step by step tools provide clear guidance for readers who are ready to make the same kind of journey one with the potential to transform them and the schools they serve [What Makes a Balanced Leader?](#) Noha El-Bassiouny, Ahmed Amin, Jonathan A. J. Wilson, 2023-01-30 Despite continuous public interest in leadership studies as well as the abundance of extant literature the world continues to face leadership predicaments Given the global crises mankind has been recently exposed to which include the financial crisis of 2008 as well as the COVID 19 pandemic further exploration of leadership concepts seems warranted This edited book aims at introducing the concept of Balanced Leadership from an Islamic perspective Drawing on both leadership and Islamic studies the book synchronizes between secular and religious knowledge domains whilst introducing the notion of balance to mainstream leadership literature The conceptualizations presented in the book serve to dissect the leadership literature present historical and philosophical accounts of the balanced leadership concept and infuse that with Islamic theology The book is useful for practitioners interested in leadership studies as well as scholars and researchers aiming at extending the leadership literature *Forces of Influence* Fred Ende, Meghan Everette, 2020-02-10 In *Forces of Influence* Fred Ende and Meghan Everette contend that schoolwide success starts with relationships not only between students and adults but also among all adults up and down the education hierarchy It s by leveraging these relationships that educators can influence outcomes and effect real change But how can educators make sure they exert their influence astutely and sensitively navigating education s priorities and pressures while keeping their work focused on the mission This thought provoking book helps readers navigate this tricky terrain introducing four forces or levels of influence and explaining how educators can use them to support one another s practice and push for positive

outcomes for all learners The authors Explore each of the four forces the pull the push the shove and the nudge and explain why they work and what research shows about their effectiveness Introduce the Forces of Influence Leadership Matrix FILM a framework that identifies how the four forces connect and helps readers determine when to use which force with whom and how Provide advice on how to course correct by switching and layering the forces for positive results and how to recover from setbacks Offer copious tools to support this work including role plays self assessments templates and questions to spur reflection and action taking Everything educators do requires them to build sustain and leverage relationships With this guide they no longer have to wing it *Making a Positive Impact in Rural Places* R. Martin Reardon, Jack

Leonard, 2018-03-01 Following on from the preceding volume in this series that focused on innovation and implementation in the context of school university community collaborations in rural places this volume explores the positive impact of such collaborations in rural places focusing specifically on the change agency of such collaborations The relentless demand of urban places in general for the food and resources e g mineral and energy resources originating in rural places tends to overshadow the impact of the inevitable changes wrought by increasing efficiency in the supply chain Youth brought up in rural places tend to gravitate to urban places for higher education and employment social interaction and cultural affordances and only some of them return to enrich their places of origin On one hand the outcome of the arguable predominance of more populated areas in the national consciousness has been described as urban normativity a sense that what happens in urban areas is the norm By implication rural areas strive to approach the norm On the other hand a mythology of rural places as repositories of traditional values while flattering fails to take into account the inherent complexities of the rural context The chapters in this volume are grouped into four parts the first three of which explore in turn collaborations that target instructional leadership increase opportunities for underserved people and target wicked problems The fourth part consists of four chapters that showcase international perspectives on school university community collaborations between countries Australia and the United States within China within Africa and within Australia The overwhelming sense of the chapters in this volume is that the most compelling evidence of impact of school university community collaborations in rural places emanates from collaborations brokered by schools communities to which universities bring pertinent resources **Leading Change Together** Eleanor Drago-Severson, Jessica

Blum-DeStefano, 2018-01-02 If we can get adult development right we can change the world Adult development in schools Yes In fact understanding and sharing ideas and implementing practices that help adults explore experiences and assumptions is a powerful driver of school change Eleanor Drago Severson and Jessica Blum DeStefano share expertise that has evolved from their many decades of research and work with educators and show you how to Deepen your understanding of adult development and its role in systemic and schoolwide change and educational improvement Connect theory to practice with developmentally oriented structures and strategies that enhance collaboration communication and feedback
