Balancing Breast And Bottle Reaching Your Breastfeeding Goals:

Balancing Breast and Bottle Amy Peterson, Mindy Harmer, 2020-04-10 **Balancing Breast and Bottle Reaching Your Breastfeeding Goals** 1st edition helped mothers worldwide successfully feed their babies at the breast and with a bottle. Positive reviews from mothers included: "I cannot recommend this book highly enough and I will be gifting it to all future moms I know who plan to breast and bottle feed. Buy it! I thought I could find the same info online but save your time and energy. You'll be so thrilled you did! I now feel prepared to go back to work." This book helped my baby become a breast and bottle feeding champ. The second edition, like the first, is a must-read for any mother who wants to breast and bottle feed her baby. This book will help you get breastfeeding off to a good start and guide you through the process of selecting and using a bottle that is right for your breastfed baby. It includes an expanded breastfeeding section, updated recommendations for collecting, storing, and stockpiling milk, and information about safe formula preparation and use. Along with these changes comes a new tagline: **Feeding Your Baby: Balancing Breast and Bottle Feeding Your Baby**. 2nd edition is for new mothers who want information about bottle selection specific for your baby. How to make a bottle with breast milk, formula, or both. Using your letdown pattern as a guide for bottle pacing. Overcoming breast and bottle feeding obstacles. Feeding your baby when apart. Pacifier use and the breastfed baby. Finding a balance that is right for you and your baby. Amy Peterson, BS, IBCLC and Mindy Harmer, MA, CCC, SLP, CLC offer the combined expertise of an International Board Certified Lactation Consultant and Certified Speech-Language Pathologist/Certified Lactation Counselor. They bring two unique and informed perspectives in selecting and using a bottle and pacifier for a breastfed baby.

Balancing Breast and Bottle Amy Peterson, Mindy Harmer, 2009-11 Are you a breastfeeding mother? Do you sometimes need to find an alternate way to feed your baby when you are apart? Choosing to breastfeed your baby is an excellent choice. Your baby benefits in many ways, and you have the peace of mind of knowing that you are giving your baby a great start. There may be times, whether by necessity or choice, when you need to offer your baby a bottle or a pacifier. You will want to find a feeding and comfort method that works for you and your baby without sabotaging breastfeeding. Although many companies claim their bottles are most like breastfeeding, no bottle nipple style is right for every baby. **Balancing Breast and Bottle** provides you with valuable information on how to select and use the bottle nipple or pacifier that is best for your breastfed baby. Authors Amy Peterson and Mindy Harmer help mothers solve the dilemma of how to feed a breastfed baby during separation while protecting the breastfeeding relationship and making sure that every mother can reach her breastfeeding goals. The authors' combined professions of International Board Certified Lactation Consultant and Speech-Language Pathologist bring two unique and informed perspectives in selecting and using artificial nipples for a breastfed baby. **Balancing Breast and Bottle** helps mothers understand the basics of breastfeeding and how a baby's suck can be used to select the best bottle nipple.
