Bank Selection Criteria:

Customers Bank Selection Criteria Dawit Tekletsadik, 2014-11-19 Commercial banks need to identify the criteria on which potential customers determine their bank selection decision in order to plan an appropriate marketing strategy for keeping present customers and attracting new ones. Consequently, the identification of factors deemed important to potential bank customers is a crucial step towards winning the battle. Therefore, this study is particularly intended to examine basic motivational factors of customer's bank selection criteria of private commercial banks in Addis Ababa and how customers rank the factors based on their importance level to patronize banks and banking services. It also intended to present an analysis of demographic nature of the customer in the relative importance of choice criteria in respect of selecting a bank and to elicit the opinion of bank customers on any extra services needed to be offered by banks. Handbook of Research on Strategies and Interventions to Mitigate COVID-19 Impact on SMEs Baporikar, Neeta, 2021-06-25 The COVID 19 pandemic has affected every aspect of the modern world and its impact is felt by all. The pandemic particularly has had a large impact on businesses as they were forced to close, supply chains were disrupted and new health and safety precautions were adopted. As such, many businesses, especially small businesses, were faced with losses they could not afford. Governments and stakeholders across the world have thus needed to formulate various strategies and interventions to mitigate the negative consequences of the COVID 19 pandemic, particularly as they relate to small and medium-sized enterprises (SMEs). The Handbook of Research on Strategies and Interventions to Mitigate COVID 19 Impact on SMEs is a comprehensive reference source that encapsulates the overall effect of COVID 19 on SMEs and a variety of strategies to overcome the negative effects and create more sustainable policies and organizations moving forward. The book offers a thorough overview of interventions and tactics to help organizations, entrepreneurs, and institutions of higher learning overcome the negative impact of COVID 19 while preparing policies for a more effective post-pandemic world. Covering topics that include sustainable practices for development, interventions to lessen the impact of COVID 19, and psychological resilience for SME employees, this book is ideal for entrepreneurs, managers, executives, small businesses, family firms, academicians, scholars, practitioners, policymakers, researchers, and students.
