Athletic Footwear And Orthoses In Sports Medicine:

Athletic Footwear and Orthoses in Sports Medicine Matthew B. Werd, E. Leslie Knight, 2010-06-17 This concise manual is for sports medicine specialists who want to effectively prescribe footwear and orthotics for the athlete. The book provides a logical approach designed to maximize performance and minimize injury. In addition to the fundamentals including athletic foot types, basic biomechanics, and gait evaluation, the text also addresses the assessment and prescription of shoes, inserts, and orthotics. The work covers new technologies and sports specific recommendations as well. By presenting essential information in a convenient and easily accessible format, this book will prove to be invaluable for sports medicine physicians, podiatrists, physical therapists, athletic trainers, and other specialists when making footwear recommendations for athletes.

Athletic Footwear and Orthoses in Sports Medicine Matthew B. Werd, E. Leslie Knight, Paul R. Langer, 2017-05-27 Now in a revised and expanded second edition including an expanded section on running footwear and additional sports specific recommendations, this updated practical resource provides a concise and logical approach to prescribing footwear that will maximize performance and minimize injury in athletes. From fundamentals including athletic foot types, basic biomechanics, and gait evaluation to step by step guidance through assessment and prescription of shoes, socks, lacing, inserts, and orthoses, this book is both comprehensive and easily accessible. A new section has been added to cover the array of different considerations for running footwear: barefoot, minimalist, maximalist, as well as new sport specific recommendations. As in the previous edition, referral coding and billing are also addressed. Photographs and drawings clearly illustrate key concepts and wherever relevant, the authors have incorporated evidence based medicine. By presenting new and updated essential information in a user friendly format, *Athletic Footwear and Orthoses in Sports Medicine Second Edition* will prove to be invaluable for sports medicine physicians, podiatrists, orthopedists, physical therapists, and athletic trainers.

[Proceedings of the 2024 3rd International Conference on Social Sciences and Humanities and Arts \(SSHA 2024\)](#) Mohd Fauzi bin Sedon, Intakhab Alam Khan, Mehmet Cüneyt Birkök, KinSun Chan, 2024-06-20 This is an open access book With the progress of social civilization social science and its research are becoming more and more important Theoretically and practically the study of social phenomena and social problems and the development of prosperous social sciences are the eternal themes of human beings At present social science research and its results can hardly meet the needs of social development especially the unscientific evaluation of social science results which has aroused great concern from all walks of life and has produced dirt and questions on social science thus affecting the proper development of social science Max Weber once said that the most important function of social science in modern times is to keep people clear headed and to resist the delusions of prophetic

legislators Humanities and arts are the process of perceiving realizing thinking manipulating and expressing objective or subjective objects through capturing and excavating feeling and analyzing integrating and applying or displaying the stage results in the form obtained through feeling seeing hearing smelling touching The social sciences and humanities and arts contain content that will directly affect our lives and the way society functions And by reacting to today s increasingly intricate problems and situations through systematic and professional discussions they will further contribute to the improvement of institutions and the development of society By thinking about issues and looking at problems and the world from different perspectives by putting the two together it may be possible to have more comprehensive appropriate and better responses for example the development of laws requires a deeper understanding of the environment in which they are implemented international trade requires a certain understanding of the customs of different countries and the development of tax and economic policies requires a certain understanding of the population consumer demand etc
