A New Psychology For Sustainability Leadership The Hidden Power Of Ecological Worldviews:

A New Psychology for Sustainability Leadership Steve Schein, 2017-09-08 During the last decade the sustainability position in multinational corporations has grown in influence Much literature has explored how corporations can play an important role in solving the environmental challenges facing the planet However until now there has been little research on sustainability leadership at the individual level In this book Schein explores the deeper psychological motivations of sustainability leaders He shows how these motivations relate to overall effectiveness and capacity to lead transformational change and he explores the ways in which the complexity of sustainability is driving new approaches to leadership Drawing on interviews with 75 leaders from over 40 multinational corporations and NGOs Schein explores how ecological worldviews are developed and expressed in global sustainability practice By applying key theories from developmental psychology integral ecology and eco psychology to sustainability practice Schein encourages us to think about leadership in a different way A New Psychology for Sustainability Leadership will be of interest to an interdisciplinary audience of social scientists educators corporate executives and social entrepreneurs The insights from this book can be usefully integrated into leadership curriculum and development programs to help the next generation of leaders respond to global challenges

Innovation in Environmental Leadership Benjamin W. Redekop, Deborah Rigling Gallagher, Rian Satterwhite, 2018-01-19 Innovation in Environmental Leadership offers innovative approaches to leadership from a post industrial and ecological vantage point Chapters in this collection are written by leading scholars and practitioners of environmental leadership from around the globe and are informed by a variety of critical perspectives including post heroic approaches systems thinking and the emerging insights of Critical Leadership Studies CLS By taking the natural environment seriously as a foundational context for leadership Innovation in Environmental Leadership offers fresh insights and compelling visions of leadership pertinent to 21st century environmental and social challenges Concepts and understandings of leadership emerged as part of an extractive industrial system this work asks its readers to re think what leadership looks like in an ecologically sustainable biological system This book provides fresh insights and critical perspectives on the vibrant and growing field of environmental leadership It shows the latest state of knowledge on the topic and will be of interest both to students at an advanced level academics and reflective practitioners It addresses the topics with regard to leadership theory and environmental leadership and will be of interest to researchers academics and students in the fields of sustainability environmental ethics natural resource management environmental studies business management public policy and environmental management

A Theory of Environmental Leadership Mark Manolopoulos, 2021-03-15 In A Theory of Environmental Leadership Mark Manolopoulos draws on his original model of leading outlined in his cutting edge book Following Reason to derive and develop the first properly systematic model of eco leadership Suppose humanity's relation with the Earth may be described in terms of leadership stages or modalities once upon a time the Earth led or ruled humanity

and now we humans rule or lead the Earth When the Earth led the Earth flourished now that humankind leads the Earth flounders ecological crises multiply and intensify However there might be a third stage or modality of leadership humanity leading for the Earth leading in a way that allows the world including humans to re flourish What would be the nature of this truly environmental form of leadership A Theory of Environmental Leadership identifies and critically analyzes the two basic and incompatible positions associated with the way we construe and interact with the non human anthropocentrism human supremacism and ecocentrism ecological egalitarianism By rigorously analyzing and leveraging this polarity this book outlines an innovative theory of eco leadership together with some of its confronting but necessary measures Expansive and incredibly timely A Theory of Environmental Leadership is ideal for a range of audiences from scholars and students of environmental leadership studies to activists and policymakers The book s remarkable clarity and engaging character also makes it suitable for the general public

The Handbook of Climate Change Leadership in Organisations

Doug MacKie,2023-11-27 Climate change is one of the most significant and challenging problems we face today and many organisations have recognised their responsibility in reducing emissions and environmental degradation and regenerating biodiversity However conventional leadership has failed to respond adequately to the magnitude of the threat and a profound change in corporate leadership is required to substantively cut emissions and change climate policy to minimise further destructive environmental impact This book sets out the qualities and approaches needed by leaders to successfully develop and implement climate change mitigation and adaptation policies Bringing together the foremost experts in climate change leadership from business leadership psychology and coaching backgrounds this book addresses the failures of current leadership practice and proposes a variety of models of how climate change leadership capabilities can be effectively developed in organisations It is structured around four concepts foundations which includes models of environmental ecological and evolutionary leadership transitions which looks at transformational and ethical models that are being repurposed for the age of sustainability progressions which explores innovative models that are being developed for the current age including systems adaptation and maturity based models of leadership and actions which includes models of sustainable goal setting and climate leadership coaching and development The book is written for

corporate leaders researchers and educators and will be an invaluable addition to the leadership curriculum and executive development programmes to help the next generation of leaders respond to global challenges **Making Nature Social**
Rembrandt Zegers,2024-06-15 As the global climate crisis and biodiversity loss deepen their impact and gain pace Making Nature Social Towards a Relationship with Nature provides core insights into what it means to understand our relationship to nature This relationship is illustrated through interviews with people working in different nature practices including engaging with nature non human animals place advocacy and with work organization values Rembrandt Zegers argues that since non humans do not use human language meaning is conducted through the senses giving rise to a knowing that manifests itself through the body first before finding its way socially in human language Through these senses the relation to non human others and nature can become a conversation in other words a relationship built on reciprocity The book illustrates how these meanings occur and how these conversations happen how crucial they are and how they are connected It dives deep into the essence of the lived experience of our relationship to nature and in doing so acknowledges how important the lived experience is for the purpose of a relationship with nature **Handbook on Leadership in Education**

Philip A. Woods,Amanda Roberts,Meng Tian,Howard Youngs,2023-11-03 This comprehensive Handbook explores how to best understand develop and practise educational leadership in an era of significant disruption to education Contributors evaluate the latest developments in leadership in education and provide novel insights into key conceptual and methodological issues
