Women and Leadership Deborah L. Rhode,2016-10-03 For most of recorded history men have held nearly all of the most powerful leadership positions Today although women occupy an increasing percentage of leadership positions in America they hold less than a fifth of positions in both the public and private sectors The United States ranks 78th in the world for women s representation in political office In politics although women constitute a majority of the electorate they account for only 18 percent of Congress 10 percent of governors and 12 percent of mayors of the nation s 100 largest cities In academia women account for a majority of college graduates but only about a quarter of full professors and university presidents In law women are almost half of law school graduates but only 17 percent of the equity partners of major firms and 22 percent of Fortune 500 general counsels In business women constitute a third of MBA graduates but only 5 percent of Fortune 500 CEOs In Women and Leadership the eminent legal scholar Deborah L Rhode focuses on women s underrepresentation in leadership roles and asks why it persists and what we can do about it Although organizations generally stand to gain from increasing gender equity in leadership women s underrepresentation is persistent and pervasive Rhode explores the reasons including women s family roles unconscious gender bias and exclusion from professional development networks She stresses that we cannot address the problem at the individual level instead she argues that we need broad based strategies that address the deep seated structural and cultural conditions facing women She surveys a range of professions in politics management law and academia and draws from a survey of prominent women to develop solutions that can successfully chip away at the imbalance These include developing robust women to women networks enacting laws and policies that address work life imbalances and training programs that start at an earlier age Rhode s clear exploration of the leadership gap and her compelling policy prescriptions will make this an essential book for anyone interested in leveling the playing field for women leaders in America
