A Postcapitalist Politics:

A Postcapitalist Politics J. K. Gibson-Graham, Is there life after capitalism In this creatively argued follow up to their book *The End of Capitalism As We Knew It* J K Gibson Graham offer already existing alternatives to a global capitalist order and outline strategies for building alternative economies *A Postcapitalist Politics* reveals a prolific landscape of economic diversity one that is not exclusively or predominantly capitalist and examines the challenges and successes of alternative economic interventions Gibson Graham bring together political economy feminist poststructuralism and economic activism to foreground the ethical decisions as opposed to structural imperatives that construct economic development pathways Marshalling empirical evidence from local economic projects and action research in the United States Australia and Asia they produce a distinctive political imaginary with three intersecting moments a politics of language of the subject and of collective action In the face of an almost universal sense of surrender to capitalist globalization this book demonstrates that postcapitalist subjects economies and communities can be fostered The authors describe a politics of possibility that can build different economies in place and over space They urge us to confront the forces that stand in the way of economic experimentation and to explore different ways of moving from theory to action J K Gibson Graham is the pen name of Katherine Gibson and Julie Graham feminist economic geographers who work respectively at the Australian National University in Canberra and the University of Massachusetts Amherst

A Postcapitalist Politics J. K. Gibson-Graham, 2006 *A postcapitalist politics* reveals a prolific landscape of economic diversity one that is not exclusively or predominantly capitalist and examines the challenges and successes of alternative economic interventions Marshaling empirical evidence from local economic projects and action research in the United States Australia and Asia Gibson Graham produces a distinctive political imaginary with three intersecting moments a politics of language of the subject and of collective action Describing a politics of possibility that can build different economies they urge us to confront the forces that stand in the way of economic experimentation and to explore new ways of moving from theory to action book cover

The Politics of Social Democracy Rob Manwaring, 2021-05-12 This book addresses the meaning of contemporary social democracy and how the centre left is navigating through its current identity crisis through a series of cases of social democratic and labour parties across Europe and the Anglosphere The book examines the ideological policy electoral and organisational dilemmas facing the centre left Taking in cases including those from the UK Austria France Germany Scandinavia Australia and New Zealand it outlines and explores the current and future trajectories of the family of centre left parties This text will be of key interest to students scholars and interested readers of labour and social democratic politics centre left political parties trade unions the future of the centre left and more broadly to those studying political parties European and comparative politics

Precarious Worlds Katie Meehan, Kendra Stauss, 2015-11-15 This edited collection contributes to the theoretical literature on social reproduction defined by Marx as the necessary labor to arrive the next day

at the factory gate and extended by feminist geographers and others into complex understandings of the relationship between paid labor and the unpaid work of daily life The volume explores new terrain in social reproduction with a focus on the challenges posed by evolving theories of embodiment and identity nonhuman materialities and diverse economies Reflecting and expanding on ongoing debates within feminist geography with additional cross disciplinary contributions from sociologists and political scientists Precarious Worlds explores the productive possibilities of social reproduction as an ontology a theoretical lens and an analytical framework for what Geraldine Pratt has called a vigorous materialist transnational feminism

The Politics of Responsibility Chad Lavin, 2023-12-11 Politics cannot function without responsibility but there have been serious disagreements about how responsibility is to be understood and huge controversies about how it is to be distributed rewarded legislated and enforced The liberal notions of personal responsibility that have dominated political thinking in the West for more than a century are rooted in the familiar territory of individual will and causal blame but these theories have been assailed as no longer adequate to explain or address the political demands of a global social structure Informed by Marx Foucault and Butler Chad Lavin argues for a postliberal theory of responsibility formulating responsibility as a process that is anchored in a persistent ability to respond not reproach Lavin works this formulation through discussions of contemporary political issues such as globalization police brutality and abortion Rather than assigning individual blame postliberal responsibility challenges the supposed autonomy of individual subjects by taking structural arguments into account Lavin concludes that a liberal concept of responsibility gives rise to a moralistic and oppressive approach to social problems while a postliberal approach highlights a shared responsibility for developing collective solutions to systemic problems Postliberal responsibility not only suggests more generous and democratic responses to social ills it also allows us to theorize a greater range of issues that demand political response

Contemplative Democracy Shannon Lee Mariotti, 2025 In Contemplative Democracy Shannon L Mariotti explores how contemplative practices represent a form of world building that is valuable for meaningful democracy and an overlooked form of ordinary political theory Reimagining the work of political theory employing feminist approaches and with a focus on educational spaces and democratic modes of pedagogy Mariotti examines contemplative practices as spaces where ordinary people do the work of democracy creating new political imaginaries finding new selves and founding new states of being Further this book reveals how the larger body politic may be reshaped by the everyday work people do in their own bodies

Postpolitics and the Limits of Nature Andy Scerri, 2019-01-01 Explores why past generations of radical ecological and social justice scholarship have been ineffective and considers the work of a new wave of scholarship that aims to reinvent the radical project and combat injustice In Postpolitics and the Limits of Nature Andy Scerri offers a comprehensive overview of the critical theory project from the 1960s to the present refracted through the lens of US politics and the American Left He examines why past generations of radical ecological and social justice scholarship have been ineffective in the fight against

injustice and rampant environmental exploitation Scerri then engages a new wave of radicals and reformists who in the wake of the Occupy movement and the 2016 presidential election are reinventing the radical project as a challenge to injustice in the Anthropocene era Along the way he provides a fresh account of the thought of one of the major contributors to critical theory Theodor Adorno and of recent work that seeks to link Adorno's ideas to the so called new realism in political philosophy and political theory This book is something like an *histoire v nementielle* of contending philosophies of nature and the natural in relation to economy and politics over the past 60 odd years What is impressive is the way Scerri situates the many different activists scholars and views in the transition from Keynesian regulatory society to naturalized neoliberalism Thus authors are treated not as timeless purveyors of theory but rather as political economists rooted in the trends and currents of their particular time I believe this will be an important book Ronnie D Lipschutz coauthor of *Environmental Politics for a Changing World Power Perspectives and Practice Second Edition* **Postcapitalist Futures** Adam Fishwick, Nicholas Kiersey, 2021-05-20 This book critically engages with the proliferation of literature on postcapitalism which is rapidly becoming an urgent area of inquiry both in academic scholarship and in public life It collects the insights from scholars working across the field of Critical International Political Economy to interrogate how we might begin to envisage a political economy of postcapitalism The authors foreground the agency of workers and other capitalist subjects and their desire to engage in a range of radical experiments in decommodification and democratisation both in the workplace and in their daily lives It includes a broad range of ideas including the future of social reproduction human capital circulation political Islam the political economy of exclusion and eco communities Rather than focusing on the ending of capitalism as an implosion of the value money form this book focuses on the dream of equal participation in the determination of people's shared collective destiny *Food Politics, Activism and Alternative Consumer Cooperatives* Beyza Oba, Zeynep Özsoy, 2023-10-30 Following the global financial crisis of 2008 there has been significant interest among scholars and activists in alternative forms of organization that operate according to noncapitalist logic including Alternative Consumer Cooperatives ACCs Using the example of Turkey where neoliberal economics combined with authoritarian politics formed conditions that have profound social and economic consequences this book investigates ACCs as spaces for prefigurative food politics Offering a novel perspective on alternative forms of organizing this book challenges the easy assumptions of what it means to be a scholar working on activism in the global north and shows how through the foundational values of solidarity reciprocity and responsibility it is possible to create new and imaginative forms of politics and activism **A Technomoral Politics** Aradhana Sharma, 2024-11-12 Examining anticorruption battles and transparency laws to ask what makes for good governance and can it limit liberal democratic politics as much as encourage it Good governance is meant to empower citizens increase democratic participation and make states transparent and accountable yet this liberal democratic imperative can also promote populist authoritarian rule Bringing together discourses on ethical goodness with the

technicalities of governance as expressed in laws and policies Aradhana Sharma develops the concept of technomoral politics to navigate this fraught topic With a focus on the work of activists citizens and state officials she offers an ethnographic account of the contradictions and dangers of good governance politics in twenty first century India A Technomoral Politics follows the evolution of a group of activists in New Delhi led by Arvind Kejriwal from 2008 to 2014 as they morphed from a protransparency NGO to a mass movement against state corruption to a populist party that promised to change the political system through laws and policies Sharma explores the technomoral framing of state opacity and corruption as well as the limits of the law in resolving these issues probing such themes as the contradictory relationship between transparency and bureaucracy and the classed and gendered nature of democratic state institutions By examining scalar dimensions of good governance politics from the hyperlocal work of activists to global trends A Technomoral Politics illuminates the paradoxes limits and risks of a system that is meant to spread liberal democratic principles but that also ends up promoting antidemocratic populist authoritarian forms of rule Retail e book files for this title are screen reader friendly
