Culture as Weapon Nato Thompson, 2017-01-17 One of the country's leading activist curators explores how corporations and governments have used art and culture to mystify and manipulate us. The production of culture was once the domain of artists but beginning in the early 1900s the emerging fields of public relations, advertising and marketing transformed the way the powerful communicate with the rest of us. A century later the tools are more sophisticated than ever the onslaught more relentless. In *Culture as Weapon* acclaimed curator and critic Nato Thompson reveals how institutions use art and culture to ensure profits and constrain dissent and shows us that there are alternatives. An eye-opening account of the way advertising media and politics work today *Culture as Weapon* offers a radically new way of looking at our world.

The Ministry of Common Sense Martin Lindstrom, 2021 A humorous yet practical five step guide to ridding ourselves and our companies of the bureaucratic bottlenecks and red tape that plague every office. You try to reserve a conference room for a crucial client meeting via your company's new and improved computer service only to find that every conference room is booked seemingly forever. Your weekly conference call is hijacked by video screens freezing, cords not working and employees dropping in and out. You then sit through an endless Power Point presentation that everyone claims they've read, no one has and that could have been summarized in one page. What has happened to common sense? And how can we get it back? Companies it seems have become so entangled in their

own internal issues and further beset by reams of invisible red tape that they've lost sight of their core purpose. Inevitably they pay the price. Best selling author Martin Lindstrom combines numerous real life examples of corporate common sense gone wrong with his own ingenious plan for restoring logic and sanity to the companies and people that need it most. A must read for today's executives, managers and office workers. The Ministry of Common Sense is funny, entertaining and immensely practical.

We need imagination now more than ever to find new opportunities, rethink our businesses and discover paths to growth. Yet too many companies have lost their ability to imagine. What is this mysterious capacity? How does imagination work? And how can organizations keep it alive and harness it in a systematic way? The Imagination Machine answers these questions and more. Drawing on the experience and insights of CEOs across several industries as well as lessons from neuroscience, computer science, psychology and philosophy. Martin Reeves of Boston Consulting Group's Henderson Institute and Jack Fuller, an expert in neuroscience, provide a fascinating look into the mechanics of imagination and lay out a process for creating ideas and bringing them to life. The Seduction: How to open yourself up to surprises. The Idea: How to generate new ideas. The Collision: How to rethink your idea based on real world feedback. The Epidemic: How to spread an evolving idea to others. The New Ordinary: How to turn your novel idea into an accepted reality. The Encore: How to repeat the process again and again. Imagination is one of the least understood but most crucial ingredients of success. It's what makes the difference between an incremental change and the kinds of pivots and paradigm shifts that are essential to transformation, especially during a crisis. The Imagination Machine is the guide you need to demystify and operationalize this powerful human capacity to inject new life into your company and to head into unknown territory with the right tools at your disposal.
