Embracing the salt marsh J.A.W. Nicolay, M. Schepers, 2022-01-24 From a modern day perspective it may seem odd that people should have chosen to dwell in the open salt marsh landscape along the Wadden Sea coast While the beauty of the salt marshes is widely acknowledged the idea of living there seems to suggest struggle and misery Yet the salt marsh settlers dwelling on their settlement mounds or terps did not just survive or get by but actually managed to live a good life by embracing this marshy world and its peculiarities This collection of papers focuses on foraging farming and food preparation in the context of the salt marsh environment The various contributions celebrate the career and work of Annet Nieuwhof who has been an inspirational colleague and great friend to many of us She passionately embraced terp research always actively stimulating cooperation across disciplines as well as national borders Reflecting some of Annet s wide ranging interests the present volume is dedicated to her in friendship and gratitude
