Architecture Cin Ma Jean Attali:

Manifesto for a Cinematic Architecture Pascal Schöning, 2006 Cinematic Architecture is a manifesto for an architecture that transforms solid material into the appearance of energy and spatiality Its main building material is light and its ultimate aim is to achieve an ethereal state which only becomes real when it is energized by the person who occupies it **Gilles Deleuze and Félix Guattari** François Dosse, 2011 In May 1968 Gilles Deleuze was an established philosopher teaching at the innovative Vincennes University just outside of Paris Felix Guattari was a political militant and director of an unusual psychiatric clinic at La Borde Their meeting was unlikely and the two were introduced in an arranged encounter of epic consequence From that moment on Deleuze and Guattari engaged in a surprising productive partnership collaborating on several groundbreaking works including *Anti Oedipus* *What Is Philosophy* and *A Thousand Plateaus* François Dosse a prominent French intellectual examines the prolific if improbable relationship between two men of distinct and differing sensibilities Drawing on unpublished archives and hundreds of personal interviews Dosse elucidates a collaboration that lasted more than two decades underscoring the role that family and history particularly the turbulence of May 1968 played in their monumental work He also takes the measure of Deleuze and Guattari's posthumous fortunes and weighs the impact of their thought within intellectual academic and professional circles **Avery Index to Architectural Periodicals. 2d Ed., Rev. and Enl** Avery Library, 1993 *Projects Review*, 1997 **Screen-based Art** Annette W. Balkema, Henk Slager, 2000 In the 21st century the screen the Internet screen the television screen the video screen and all sorts of combinations thereof will be booming in our visual and infotechno culture Screen based art already a prominent and topical part of visual culture in the 1990s will expand even more In this volume digital art the new media as well as its connectedness to cinema will be the subject of investigation The starting point is a two day symposium organized by the Netherlands Media Art Institute Montevideo TBA in collaboration with the L B Lier en Boog series and the Amsterdam School of Cultural Analysis ASCA Issues which emerged during the course of investigation deal with questions such as How could screen based art be distinguished from other art forms Could screen based art theoretically be understood in one definite model or should one search for various possibilities and or models Could screen based art be canonized What are the physical and theoretical forms of representation for screen based art What are the idiosyncratic concepts geared towards screen based art This volume includes various arguments positions and statements by artists curators philosophers and theorists The participants are Marie Luise Angerer Annette W Balkema Ren Beekman Raymond Bellour Peter Bogers Joost Bolten No l Carroll Sean Cubitt C lin Dan Chris Dercon Honor d O Anne Marie Duquet Ken Feingold Ursula Frohne hARTware curators Heiner Holtappels Aernout Mik Patricia Pisters Nicolaus Schafhausen Jeffrey Shaw Peter Sloterdijk Ed S Tan Barbara Visser and Siegfried Zielinski *Architectural Publications Index*, 2001 *AMC le moniteur architecture*, 2009 *AA Files*, 1996 *Le Moniteur Architecture - AMC.*, 2003 *The SAGE Handbook of Qualitative Data Analysis* Uwe Flick, 2013-12-18 The

wide range of approaches to data analysis in qualitative research can seem daunting even for experienced researchers This handbook is the first to provide a state of the art overview of the whole field of QDA from general analytic strategies used in qualitative research to approaches specific to particular types of qualitative data including talk text sounds images and virtual data The handbook includes chapters on traditional analytic strategies such as grounded theory content analysis hermeneutics phenomenology and narrative analysis as well as coverage of newer trends like mixed methods reanalysis and meta analysis Practical aspects such as sampling transcription working collaboratively writing and implementation are given close attention as are theory and theorization reflexivity and ethics Written by a team of experts in qualitative research from around the world this handbook is an essential compendium for all qualitative researchers and students across the social sciences
