Birding Trails Texas Gulf Coast:

Birding Trails Texas Gulf Coast Jim Foster, 2013-11-26 The Texas Gulf Coast is one of the most outstanding birding locations in North America. From whooping cranes to sandhill cranes, ducks, geese, raptors, and the hundreds of song birds that migrate every year to the Texas Gulf make this a birder's paradise. There are numerous public sites that make for easy birding. Each year during the last week of February there is a Whooping Crane Festival in Port Aransas and Mustang Island that attracts thousands of birders. It features workshops, demonstrations, speakers, and many guided birding trips to local birding locations. Jim Foster is a noted birder. He describes each birding trail with a list of key birds, the best time of year to visit, each trail, the type of terrain, size, and complete directions to each area, many with maps of each trail. Texas is one of the four best birding states in the U.S. with over 2.5 million resident birders and thousands of non-resident birders who visit the state each year. Currently there are over 51 million birders in the United States and over 20 million travel out of their state each year to view birds. **Birding Trails Texas Gulf Coast** is a must book for all birders.

In an opening tutorial on habitat and seasonal strategies for birding the Upper Texas Coast, the authors include tips on how to take advantage of the famous but elusive fallouts of birds that happen here. They then briefly discuss the basics of birding by ear and the rewards of passive birding before turning to the trail itself and each of more than 120 birding sites from the Louisiana-Texas border through Galveston and Houston to just south of Freeport. While not intended as a field identification guide, the book contains more than 175 color photographs of birds and their coastal habitat, giving readers an excellent feel for the trail's diversity and abundance.
