Kerry Turner, 2016-01-22 The idea that nature provides services to people is one of the most powerful concepts to have emerged over the last two decades It is shaping our understanding of the role that biodiverse ecosystems play in the environment and their benefits for humankind As a result there is a growing interest in operational and methodological issues surrounding ecosystem services amongst environmental managers and many institutions are now developing teaching programmes to equip the next generation with the skills needed to apply the concepts more effectively This handbook provides a comprehensive reference text on ecosystem services integrating natural and social science including economics Collectively the chapters written by the world's leading authorities demonstrate the importance of biodiversity for people policy and practice They also show how the value of ecosystems to society can be expressed in monetary and non monetary terms so that the environment can be better taken into account in decision making The significance of the ecosystem service paradigm is that it helps us redefine and better communicate the relationships between people and nature It is shown how these are essential to resolving challenges such as sustainable development and poverty reduction and the creation of a green economy in developing and developed world contexts

The Tibetan Book of Everyday Wisdom A Thousand Years of Sage Advice presents a genre of Tibetan works known as wise sayings leksh. While most Tibetan literature focuses on the Buddhist path wise sayings literature has traditionally been a centerpiece of secular education in Tibet and in the cultivation of social mores and an honorable way of life. Drawing inspiration from classical Indian literature on human virtue and governance nitisastra including the folktales in the Pa catantra the authors of these Tibetan works strove to educate young minds in the ways of the civilized world especially by distinguishing the conduct of the wise from that of the foolish. This anthology includes some of the best loved classics of Tibetan literature such as Sakya Pandita's Jewel Treasury of Wise Sayings Panchen S nam Drakpa's Ganden Wise Sayings and Gunthang's Treatise on Trees and Treatise on Water. The final work is the intriguing Kach Phalu's Advice. Ostensibly written by a wise Tibetan Muslim this versified text enjoys great popularity within Tibetan speaking communities such that most people are able to recite at least a few verses from memory.
