

Guided Reading of “A Modest Proposal”

Analyzing a Single-Panel Cartoon

1. View the single-panel cartoon found on the Narrative Magazine: Literary Puzzler: Famous Last Words website: http://www.narrativemagazine.com/image_gallery/83886
2. Looking at the cartoon, what portion of it draws your attention first? What is there about this portion of the cartoon that attracts you? What details in this portion of the cartoon do you find particularly amusing?
3. What do the deer seem to have already done prior to the moment that we see them? Although realistically impossible, in what ways are these preparations amusing to you? What other situations do they remind you of?
4. Besides the two bucks sitting in the off-road vehicle, what other areas of the cartoon are lighter and also draw your attention? What's going on in that section of the cartoon that adds to the humor of the caption?
5. What more common situation is the basis of this cartoon? What encounters have you had with deer while driving at night?

Viewing an Episode of a Satiric Television Program

1. Note the title of the program and the original broadcast date of the episode.
2. What are the news items that form the basis of the segment?
3. How does the newscaster make use of visual support (sound bites of other media broadcasts, photos, or slogans, for example)? How do you know that what the newscaster is saying in some way makes fun of what the video clip shows?
4. Besides making fun of the subject matter or the personalities involved in the news, what is the overall effect of the satiric message as compared to the original intent of the message as a news item or a profile of an individual person?

Open Systems and Measurement in Relativistic Quantum Theory

Heinz-Peter Breuer,Francesco Petruccione,1999-06-21 This book treats modern aspects of open systems measurement and decoherence in relativistic quantum theory It starts with a comprehensive introduction to the problems related to measuring local and nonlocal observables and the constraints imposed by the causality principle In the articles that follow the emphasis lies on new theoretical models Quantum dynamical semigroups and stochastic processes in Hilbert space are introduced as are dynamical reduction models Further topics include relativistic generalizations of the continuous spontaneous localization model and of the quantum state diffusion model and decoherence and the dynamical selection of preferred basis sets in the framework of continuous measurement theory and of the decoherent histories approach Mathematical aspects of quantum measurement theory and dynamical entropies are also studied from the viewpoint of the operational approach to quantum mechanics
