Aratus Phaenomena Cambridge Classical Texts And Commentaries:

Aratus: Phaenomena Aratus, 2004-06-10 The Phaenomena is a didactic epic poem modelled on Hesiod's Works and Days and cleverly updated to appeal to contemporary readers interested in new trends in Greek poetry philosophy and science Aratus invokes a beneficent Stoic Zeus who has created the constellations and their movements to help men follow the progress of the solar year and also provides a great variety of signs in sky air earth and sea as warnings of weather changes This volume presents for the first time in English an edition of the poem with a full introduction a facing translation and a line by line commentary The introduction explains the literary and scientific background the characteristic features of Aratus language style and metre and the transmission of the text to the end of the Middle Ages The commentary gives help with the content of the poem and aims to discuss and resolve the many problems of text and interpretation caused by Aratus innovative use of language The text is based on a new reading of the MSS including one not used before **BOOK JACKET** **A Saving Science** Eric M. Ramírez-Weaver, 2017-02-24 In *A Saving Science* Eric Ramírez Weaver explores the significance of early medieval astronomy in the Frankish empire using as his lens an astronomical masterpiece the deluxe manuscript of the Handbook of 809 painted in roughly 830 for Bishop Drogo of Metz one of Charlemagne's sons Created in an age in which careful study of the heavens served a liturgical purpose to reckon Christian feast days and seasons accurately and thus reflect a heavenly order the diagrams of celestial bodies in the Handbook of 809 are extraordinary signifiers of the intersection of Christian art and classical astronomy Ramírez Weaver shows how by studying this lavishly painted and carefully executed manuscript we gain a unique understanding of early medieval astronomy and its cultural significance In a time when the Frankish church sought to renew society through education the Handbook of 809 presented a model in which study aided the spiritual reform of the cleric's soul and by extension enabled the spiritual care of his community An exciting new interpretation of Frankish painting *A Saving Science* shows that constellations in books such as Drogo's were not simple copies for posterity's sake but functional tools in the service of the rejuvenation of a creative Carolingian culture **Daniele Barbaro's Vitruvius of 1567** Kim Williams, 2019-07-05 This is the first ever English translation of Daniele Barbaro's 1567 Italian translation of and commentary on Vitruvius's *Ten Books of Architecture* an encyclopaedic treatment of science and technology whose influence extended far beyond its day Intended to both interpret and expand upon the Vitruvian text Barbaro's erudite commentary reflects his Aristotelian approach particularly his fascination with the relationship between science and the arts This treatise offers a window onto the architectural ideals of the 1500s as well as then current notions of philosophy mathematics music astronomy mechanics and more The text is accompanied by illustrations by the Renaissance architect Andrea Palladio and his contemporaries Palladio's own *Four Books on Architecture* published in 1570 was just one of many treatises on architecture that was inspired by the ideas contained here An overview of Daniele Barbaro's thinking is presented in a foreword by Branko Mitrovic The collocation of Barbaro's treatise between those of Alberti and Palladio is

addressed in a foreword by Robert Tavernor Kim Williams provides a translator's note to orient the reader The text of the translation is cross referenced to both Barbaro's 1567 publication and standard divisions of Vitruvius The volume includes a detailed index of subjects and an index of proper names

The Cambridge Companion to the Age of Attila Michael Maas, 2015 This book considers the great cultural and geopolitical changes in western Eurasia in the fifth century CE It focuses on the Roman Empire but it also examines the changes taking place in northern Europe in Iran under the Sasanian Empire and on the great Eurasian steppe Attila is presented as a contributor to and a symbol of these transformations

Pindar and the Poetics of Permanence Henry Spelman, 2018-04-23 Recent scholarship on early Greek lyric has been primarily concerned with the immediate contexts of its first performance This volume instead turns its attention to the rhetoric and realities of poetic permanence Taking Pindar and archaic Greek literary culture as its focus it offers a new reading of Pindar's victory odes which explores not only how they were received by those who first experienced them but also what they can mean to later audiences Part One of the discussion investigates Pindar's relationship to both of these audiences demonstrating how his epinicia address the listeners present at their premiere performance and also a broader secondary audience across space and time It argues that a full appreciation of these texts involves taking both perspectives into account Part Two describes how Pindar engages with a wide variety of other poetry particularly earlier lyric in order to situate his work both within an immanent poetic history and a contemporary poetic culture It shows how Pindar's vision of the world shaped the meaning of his work and illuminates the context within which he anticipated its permanence The book offers new insights into the texts themselves and invites us to rethink early Greek poetic culture through a combination of historical and literary perspectives

L'oeuvre de David l'Invincible et la transmission de la pensée grecque dans la tradition arménienne et syriaque J. R. Barnes, 2009 David a member of the Platonic school in Alexandria in the sixth century is credited with several commentaries on Aristotle's logic those commentaries and their Armenian translations form the subject of this book An introduction which discusses David and his place in the Greek and the Armenian traditions is followed by a series of studies of the relations between the Greek texts and their Armenian translations the aims are first to assess the value of the translations for the constitution of the original Greek and secondly to consider the ways in which the Armenian translations adapted the texts to suit their new readership More generally the book is concerned with the ways in which Greek thought was exported abroad to Armenia and to Syria it is required reading for anyone who is interested in the circulation of ideas between east and west Contributors include Sen Arevshatyan Jonathan Barnes Valentina Calzolari Henri Hugonnard Roche Gohar Muradyan Michael Papazian Manea Shirinian Clive Sweeting Albert Stepanyan Aram Topchyan

Sic Itur Ad Astra Paul Kunitzsch, 2000 Die Festschrift vereinigt 29 Beiträge die folgende Sachgebiete betreffen arabische und mittelalterlich europäische Mathematik Überlieferungsgeschichte der indisch arabischen Ziffern die arabisch islamische Astronomie die volkstümliche arabische Himmelskunde das Astrolab und seine Nomenklatur antike und

spatgriechische astronome Traditionen weitere Fragen bzw Texte zur Überlieferung der Wissenschaften im griechisch syrisch arabisch lateinischen Traditionsraum Alle Arbeiten sind originell und beruhen auf einschlagigen Originalquellen Mehrere griechische syrische arabische und lateinische Texte bzw Auszüge daraus sind auch ediert Die Sammlung enthält somit wichtige neue Bausteine für unser Gesamtbild von den arabischen Wissenschaften ihrem Nachleben in Europa und weiteren Ausstrahlungen auf die europäische Geistesgeschichte **The Diet of John the Baptist** James A. Kelhoffer, 2005 James A Kelhoffer offers a comprehensive analysis of Mark 1 6c par Matt 3 4c in its socio historical context the Synoptic gospels and subsequent Christian interpretation The first chapter surveys various anecdotes about John s food in the Synoptic gospels and notes that there has never been a consensus in scholarship concerning John s locusts and wild honey Chapters 2 and 3 address locusts as human food and assorted kinds of wild honey in antiquity Chapter 4 considers the different meanings of this diet for the historical Baptist Mark and Matthew Contemporary anthropological and nutritional data shed new light on John s experience as a locust gatherer and assess whether these foods could have actually sustained him in the wilderness The last chapter demonstrates that the most prevalent interpretation of the Baptist s diet from the third through the sixteenth centuries hails John s simple wilderness provisions as a model for believers to emulate

Metamorphosis, Landscape, and Trauma in Greco-Roman Myth Esther Eidinow, 2025-09-30 This study explores the hidden histories offered by Greco Roman myths of metamorphosis and what they can reveal about the lived experience of ancient men and women It investigates the role of the body and the embodied experiences of emotions in these stories arguing that these narratives of transformation allow us to glimpse aspects of our historical subjects which in other sources remain largely unseen In these narratives of metamorphosis we discover ancient worldviews they disclose the perceived inter relationships of human non human and more than human entities They show us that the human body was understood not only as a part of an extended network of beings but also to consist of and interact with the same substances that were believed to comprise the surrounding landscapes earth air fire and water By grouping together stories according to these elements this study highlights the patterns that underline different metamorphoses comparing the experiences of male and female protagonists These stories it argues express risks of transgressions both for individuals and for the wider community They tell us about the dangers that were perceived to be inherent in social roles and in relations with the gods they describe bodies both at risk and of risk And among those risks are extreme emotions appearing as both cause and result of these startling bodily changes These are narratives of the body that capture one of its most ephemeral aspects the experience of intense even traumatic emotions in which a person and the world around them comes to seem transformed Drawing on psychological research this study suggests that these stories evoke experiences that persist across time and place conveying an experience of the emotional body that speaks to us still An open access title available under the terms of a CC BY NC ND 4 0 licence [The Rhetoric of Explanation in Lucretius' De rerum natura](#) Daniel Markovic, 2008-08-31 Alleged incompatibility

of Epicurus philosophy with rhetoric has led modern scholars to isolate rhetorical procedures in Lucretius *De rerum natura* and regard them as non Epicurean accessory features This study of Lucretius rhetorical procedures is based on a wider understanding of the term rhetoric not limited to the genre of oratory In a fresh discussion of the questions of provenance and the role of the most important formal procedures of exposition in *De rerum natura* the author argues that instead of injecting rhetorical strategies from non Epicurean sources Lucretius in fact intensified rhetorical elements already present in the work of Epicurus These elements are used for the purpose of explanation and function as cognitive and mnemonic aids for the reader
